McWhinney's Textbook of Family

Medicine, 2016-02-05 McWhinney's Textbook of Family Medicine is one of the seminal texts in the field defining the principles and practices of family medicine as a distinct field of practice. The fourth edition presents new information on stewardship of resources, patient information and data, delivery of care in the home and consultation and referral, as well as six new clinical chapters of common problems in family medicine. *Textbook of Family Medicine* Ian R McWhinney, Thomas Freeman, 2009-04-08 Highly acclaimed in its first two editions, Ian R McWhinney's Textbook of Family Medicine is one of the seminal texts in the field. While many family medicine texts simply cover the disorders a practitioner might see in clinical practice, McWhinney defines the principles and practices of family medicine as a separate and distinct field of practice. The initial sections cover basic principles and philosophies of family medicine and a later section discusses approaches to common diseases encountered in practice. The discussions not only address these clinical problems but each is a workshop for incorporating what it means to be a family physician into everyday practice. The new edition is updated throughout with help from a group of reviewers and a new coauthor, Thomas Freeman, Chairman of the Department of Family Medicine at the University of Western Ontario where McWhinney is Professor Emeritus. **Textbook of Family Practice** Robert E. Rakel, 2002 For more than 25 years this trusted reference has guided physicians through every aspect of their practice, offering advice that has encouraged excellence, strengthened careers, and broadened patient bases. The chapters have been thoroughly revised not only to incorporate symptomatic approach and management at primary care level but also the advanced treatment options available in tertiary care centres. With its contemporary approach and lucid presentation, the text would be of immense value to the general practitioners as well as students pursuing courses in Family Medicine.
