Petroski, 1996-10-29 Petroski reveals the science and engineering not to mention the politics egotism and sheer magic behind America s great bridges particularly those constructed during the great bridge building era starting in the 1870s and continuing through the 1930s It is the story of the men and women who built the St Louis the George Washington and the Golden Gate bridges drawing not only on their mastery of numbers but on their gifts for persuasion and self promotion It is an account of triumphs and ignominious disasters including the Tacoma Narrows Bridge which literally twisted itself apart in a high wind And throughout this grandly engaging book Petroski lets us see how bridges became the symbols and souls of our civilization as well as testaments to their builders vision ingenuity and perseverance Seamlessly linked With astonishing scope and generosity of view Mr Petroski places the tradition of American bridge building in perspective New York Times Book Review

Kipling's exploration of the human spirit in the face of cultural and technological challenges *The Bridge Builders* Annie S. Swan, 1956 *The Bridge Builder* Gerald E. Cumby, 2014-02-05 Every moment of your journey toward home is a moment to appreciate. Some people believe and support the quote above and some adamantly disagree. I have found however instead of looking back at the bridges you crossed and the past failures in life, think on where you have come and where you are now. I said: Think but don't reflect and dwell on them. If you look at how far you have to go and how many bridges you have to cross before declaring your life a success, then you will find yourself doubting your worth and criticizing the decisions you have made in getting to this very moment in your life. Every moment you spend criticizing and doubting your worth is a moment you have wasted. Be careful, don't wish or throw one moment of your life away.

The poem *The Bridge Builder* by Will Allen Dromgoole stressed the importance of leaving a legacy of character building skills and moral lessons for the next generation. At least that is the logical inference one would make when the poem is read and taken to heart. The poem has become a favorite of business and religious motivational speakers throughout the years. As I have reflected on the poem and its meaning, I have come to the conclusion that bridge building is an important tool in one's tool chest of living life. Whether it is a bridge that offers a traveler a means of getting to where his destination is, taking him or a bridge that offers a means of protection in the storms of life, bridge building is a rewarding accomplishment as we travel life's highway to our final destination.

In my first book *The Bridge Builder* 2012, the reader was introduced to my dad and mom, Jay and Edna Glynn Bill Cumby. These two wonderful people enlightened the world in which they lived. They were real bridge builders and shining examples for their children and others who came across their bridges and paths in life. This book *The Bridge Builder: Bracing for Life's Challenges* is a continuing story of my dad, mom, and other bridge builders who hold a special place in my heart. How I handle issues today is influenced by the ethical values and character traits of these special ones whom I have been privileged to know as bridge builders. I pray that you, the reader, will get a close-up glimpse of these gentle giants as they lived life and have now crossed the bridge into glory with their Creator. All of the stories told in this writing are great counseling tools for the young and the not so young. Parents will love the idea of reading to their children these life experiences from the memories of a son who learned from wise and responsible parents as he traveled on the highway of life. My joy in writing is to know that some laughed a little and some cried a little as they walked through life with me. The experiences told in the book are true, however, the experiences are told in light of how I remembered them and how they affected me at the time. As I reflect on them now, I see that they provided structure and foundational truths that have helped me to live life to the fullest. All the experiences have helped me to see the importance of my relationship with my God, my family, and the dear friends and acquaintances who have encouraged me to live my life with joy and contentment to the very end. Enjoy the book and make sure you take to heart those experiences that will help you to live the abundant life. In life, learn to wiggle, giggle, smile, cry, and eat your favorite ice cream cone, even if you are on your way to a funeral. There are only two

ways to live your life One is as though nothing is a miracle The other is as though everything is a miracle Albert Einstein

Kipling, 2021-01-13 Findlayson C E sat in his trolley on a construction line that ran along one of the main revetments the huge  
stone faced banks that flared away north and south for three miles on either side of the river and permitted himself to think of  
the end With his approach his work was one mile and three quarters in length a lattice girder bridge trussed with the  
Findlayson truss standing on seven and twenty brick piers Each one of those piers was twenty four feet in diameter capped  
with red Agra stone and sunk eighty feet below the shifting sand of the Ganges bed Above them was a railway line fifteen feet  
broad above that again a cart road of eighteen feet flanked with footpaths At either end rose towers of red brick looped for  
musketry and pierced for big guns and the ramp of the road was being pushed forward to their haunches The raw earth ends  
were crawling and alive with hundreds upon hundreds of tiny asses climbing out of the yawning borrow pit below with  
sackfuls of stuff and the hot afternoon air was filled with the noise of hooves the rattle of the drivers sticks and the swish and  
roll down of the dirt The river was very low and on the dazzling white sand between the three centre piers stood squat cribs  
of railway sleepers filled within and daubed without with mud to support the last of the girders as those were riveted up In the  
little deep water left by the drought an overhead crane travelled to and fro along its spile pier jerking sections of iron into  
place snorting and backing and grunting as an elephant grunts in the timber yard Riveters by the hundred swarmed about the  
lattice side work and the iron roof of the railway line hung from invisible staging under the bellies of the girders clustered  
round the throats of the piers and rode on the overhang of the footpath stanchions their fire pots and the spurts of flame that  
answered each hammer stroke showing no more than pale yellow in the sun's glare East and west and north and south

the construction trains rattled and shrieked up and down the embankments the piled trucks of brown and white stone banging behind them till the side boards were unpinned and with a roar and a grumble a few thousand tons more material were flung out to hold the river in place
