The Bridge People Jackson Underwood, 1993-08-23 This book

is about the daily life of a group of homeless people who live in camps under some freeway bridges in downtown Los Angeles. It is what is called a narrative ethnography that is it consists primarily of what the author said to them and what they said to him. As a research project in the Department of Psychiatry at UCLA Underwood documented conversations with these homeless people for two and one half years. The ethnography unfolds in chronological order to allow the reader to learn about the Bridge People the way the author did one day at a time. Underwood witnessed the sights sounds and smells of this particular form of extreme poverty and developed his research into a discussion of how these people view their existence and the world around them. The author also relates his experience with democratic and humanistic ideals of today.

Murder at the Bridge Table Matthew Granovetter, 1988-07. First published in 1988 this book has been out of print for several years. It is a mystery and a bridge textbook all in one and accomplishes both exceptionally well. Based on the author's own experiences and set in and around a Manhattan bridge club the story includes many real life bridge characters whose names will be familiar to readers.

Annual Report. ... Pennsylvania. Department of Internal Affairs, 1903. The Bridgemen's Magazine, 1917. Bridge Men's Magazine, 1921. **The Pacific Reporter**, 1930. The Sellout Charles Gasparino, 2010-10-19. The ongoing tumult in financial markets and the global economy began when some of our most esteemed financial institutions our government and even average citizens abdicated their collective responsibilities eventually selling out investors and selling off the American Dream itself. From critically acclaimed investigative journalist and CNBC personality Charles Gasparino comes a sweeping examination of the most volatile anxiety ridden era in our nation's socioeconomic history. The winner of the 2009 Investigative Reporters and Editors Award for Books The Sellout traces the recent implosion of the financial services business back to its roots in the late 1970s when Wall Street embraced a new business model predicated on enormous risk. Gasparino reveals a startling trail of culpability from the government bureaucrats who crafted housing policies to the Wall Street firms that underwrote and invested in risky debt to the mortgage sellers who indiscriminately handed out loans and finally to the homeowners who thought they could afford mansions on blue collar wages.
