Thompson,2021-01-12 Attaining the Unattainable Is Within Our Reach Captain William T Thompson s accomplishments are many US Air Force pilot Delta Airlines captain lawyer award winning businessman and professional speaker But Thompson did not start out in life with any special advantages In

fact being born and raised in segregated South Carolina meant that the difficulties he faced growing up were many. But realizing his aspiration to become a pilot and becoming the first African American from the state to be accepted into the prestigious United States Air Force Academy was just the beginning of a pattern of successes in a life that extended far beyond its origins. Thompson uses his life's challenges and his personal story to prove that we can all accomplish much more than we previously considered possible and that we should strive for things that we have even considered unattainable. It doesn't take special gifts or talents; either, the author insists. He credits his P4 System Principles: People, Flight, Plan, and Performance as the foundation that enabled him to literally pilot his way to success and ultimately become a multimillionaire in the process. With an attractive and distinctive aviation motif, *The Flight to Excellence* inspires and instructs executives, entrepreneurs, and anyone with a strong desire to reach extraordinary heights on how we can each build a Culture of Excellence in our own professional and personal lives by applying his methodical process and concepts and our own discipline and hard work. The proof is in the captain's own successes.

The static longitudinal stability of an airplane with locked elevator is usually determined by analysis and model tests. The present report proposes to supply the results of such measurements. The method consisted of recording the dynamic pressure versus elevator displacement at different center of gravity positions in unaccelerated flight.
