The Buried Moon

Joseph Jacobs

The Buried Moon:

The Buried Moon Joseph Jacobs,1969 **The Buried Moon** Amanda Walsh,1991 The Moon is held prisoner in the bog by the Hidden Folk until the townspeople miss her light and go in search of her *The Buried Moon and Other Stories*,1977-01-01 A collection of five folk tales from various countries **Buried Moon and Other Stories** ,2012 **The Celtic Breeze** Heather McNeil,2001-10-15 Delve into a world of kelpies mermaids selkies ghosts warlords and fairies This collection gives you Celtic tales previously unrecorded or only found in obscure compilations Mostly collected by the author on her ancestral home of the Isle of Barra in the Hebrides these lesser known tales from Scotland Ireland and Wales are supported by a brief history of the Celts a glossary of the Gaelic integrated in the stories an appendix of superstitions about fairy protection and bibliographies that reflect the author s extensive research Seventeen ballads collected almost one hundred years ago and excerpts from the author s journal of travels in Scotland make this book a unique and valuable resource for anyone who tells stories The Buried Moon Belinda Gallagher,2012-01-01 This series captures the imagination of young readers with tales of enchantment It is ideal for young readers to read along with parents or older children to read alone Buried Moon Margaret Hodges,1990 Who will rescue the Moon after she is buried in a dark pool by witches goblins and other evil creatures who have always resented her bright shining light **More English fairy tales, collected and ed. by J. Jacobs** Joseph Jacobs,1894 **Managing Social Anxiety in Children and Young People** Sue Jennings,2022-10-18 Managing Social Anxiety in Children and Young People introduces a new approach for working with anxious children and young people to help them develop social skills and reduce stress Structured around the principles of nurturing and nesting the book focuses on a practical approach which strays away from dependency on medicine but relies on the stimulation of thoughts and feelings during the process of change It shows readers how shifting perceptions of oneself and others can change a person s attitude The chapters feature tangible resources and exercises for developing the core processes of breathing rhythm sound and physical movement in a way that can lead to a reduction of the anxiety and a new awareness of the self The techniques are clearly laid out in developmental sequences accompanied by illustrated worksheets and story sheets This book will be of interest to teachers teaching assistants care workers clinicians therapists parents and all professionals involved in the support and development of children and young people **Fairy Tales of the British Empire** Joseph Jacobs,1895 **Children Writing Stories** Armstrong, Michael,2006-03-01 Here is a worthy successor to Ted Hughes Poetry in the Making the book that enabled me to gain the confidence to begin to find my own voice as a story teller Children Writing Stories confirms that we all have a story to tell if we are enabled to develop enough self belief So much of our natural creativity is smothered during our school years Teachers and children feel hemmed in by the strictures of a curriculum which simply does not allow room for creativity to breathe Unlock the chains let the light in and this is the kind of writing that will flow this is the kind of intellectual and emotional growing that can transform young lives Michael Morpurgo

Children's Laureate 2003-2005 What a splendid book Michael Armstrong pays attention thirty years of it to the stories that children write We get two for one the children's own delightful and intriguing work I want to rush off and write some Wally age 5 stories of my own and Michael Armstrong's intense interpretations Allan Ahlberg This is real learning at its best teaching by example through painstaking scrutiny of the art of young writers Absorbing moving enlightening inspiring Morag Styles University of Cambridge In *Children Writing Stories* Michael Armstrong reveals the creative force of children's narrative imagination and shows how this develops through childhood He provides a new and powerful understanding of the significance of narrative for children's intellectual growth and for learning and teaching The book explores a series of real stories written by children between the ages of five and fifteen and traces the growth of literary consciousness from the dawn of written narrative in the kindergarten through the early years of schooling and on into adolescence Each chapter opens with a story or stories which the author then goes on to examine in detail so that the book may be seen as both a select anthology of children's stories and as a critical account of children's narrative practice This original and provocative book will appeal to teachers parents students of education and readers with an interest in literacy children's writing or narrative theory
