The Burning Man:

Burning Man Jennifer Raiser, 2014-08-08 Every August tens of thousands of participants gather to celebrate artistic expression in Nevada's barren Black Rock Desert. This vastly inhospitable location called the playa is the site of Burning Man where within a 9 mile fence artists called Burners create a temporary city devoted to art and participation. Braving extreme elements over two hundred wildly ambitious works of art are created and intended to delight, provoke, involve or amaze. In 2013 over 68,000 people attended the highest number ever allowed on the playa. As Burning Man has created new context, new categories of art have emerged since its inception including Art to Ride, Collaborative Art and of course Art to Burn. Burning Man Art on Fire is an authorized collection of some of the most stunning examples of Burning Man art. Experience the amazing sculptures, art stories and interviews from the world's greatest gathering of artists. Get lost in a rich gallery of images showcasing the best examples of playa art with 170 photos. Interviews with the artists reveal not only their motivation to create art specifically for Burning Man but they also illuminate the dramatic efforts it took to create their pieces. Featuring the incredible photography of long time Burning Man photographers Sidney Erthal and Scott London, an introduction from Burning Man founder Larry Harvey and a foreword from Will Chase, this stunning gift book allows Burners and enthusiasts alike to have a piece of Burning Man with them all year around.

The Archaeology of Burning Man Carolyn L. White, 2020-04-15 Each August staff and volunteers begin to construct Black Rock City, a temporary city located in the hostile and haunting Black Rock Desert of northwestern Nevada. Every September nearly seventy thousand people occupy the city for Burning Man, an event that creates the sixth largest population center in Nevada. By mid-September the infrastructure that supported the community is fully dismantled and by October the land on which the city lay is scrubbed of evidence of its existence. The Archaeology of Burning Man examines this process of building, occupation and destruction. For nearly a decade Carolyn L. White has employed archaeological methods to analyze the various aspects of life and community in and around Burning Man and Black Rock City. With a syncretic approach, this work in active site archaeology provides both a theoretical basis and a practical demonstration of the potential of this new field to reexamine the most fundamental conceptions in the social sciences.

Desert to Dream Barbara Traub, 2011 Offers a photographic record of the annual event held in the Black Rock Desert in Northern Nevada from its beginning as a performance art exhibit to its current status as a pop culture destination.
