The Cargo Cult:

Cargo, Cult, and Culture Critique Holger Jebens,2004-01-01 This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo cults *The Cargo Cult* Kakesek Peniel,1969 **Cargo Cult** Lamont Lindstrom,2019-03-31 Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice radios and refrigerators ships that will never arrive Of all the stories spun about the island peoples of Melanesia tales of cargo cult are among the most fascinating The term cargo cult Lamont Lindstrom contends is one of anthropology s most successful conceptual offspring Like culture worldview and ethnicity its usage has steadily proliferated migrating into popular culture where today it is used to describe an astonishing roll call of people It s history makes for lively and compelling reading The cargo cult story Lindstrom shows is more significant than it at first appears for it recapitulates in summary form three generations of anthropological theory and Pacific studies Although anthropologists enthusiasm for the notion of cargo cult has waned it now colors outsiders understanding of Melanesian culture and even Melanesians perceptions of themselves The repercussions for contemporary Islanders are significant leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist Of particular interest to this history is Lindstrom s argument that accounts of cargo cult are at heart tragedies of thwarted desire melancholy anticipation and crazy unrequited love He makes a convincing case that these stories expose powerful Western scenarios of desire itself giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar **Occidentalism : Images of the West** James G. Carrier,1995-04-13 This is an investigation of Western cultural identity It shows how people s images of themselves and others reflect the power that different groups in a society have to shape these images The contributors describe these images in Western academic writing popular Western culture and societies outside the West in this counterpart to Edward Said s Orientalism Occidentalism is an investigation of images of Western cultural identity Edward Said s Orientalism revolutionized Western understanding of non Western cultures by showing how Western projected images shaped the Occidental of the Orient but those who follow Said have not until now reflected that understanding back onto Western societies Occidentalism shows how images of the West shape people s conceptions of themselves and others and how these images are in turn shaped by members of Western and non Western societies alike The contributors describe and explicate these images in a variety of areas from Western academic writing to popular Western culture from societies within and outside the West to show how power and conflict shape such conceptions **The Contextualization of Cargo Cult Beliefs and the Christian Message in Irian Jaya, Indonesia** Michael L. McDowell,1994 **Cargo, Cult, and Culture Critique** Holger Jebens,2004-09-30 Cargo cults have long exerted a remarkable attraction on Westerners and the last decade has seen the publication of much new work on the subject This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in

the contemporary debate on cargo. Conceived as a reader for undergraduate and graduate courses, the volume offers an up-to-date view of the subject and the debates it arouses among contemporary anthropologists. Some contributors plead for the abolition of cargo because of its troublesome implications, but also because in their view cargo cults do not exist as identifiable objects of study. Others argue that it is precisely this troublesome nature that makes the term a useful analytical tool that should be welcomed rather than rejected. By delineating and substantiating key issues and positions in this lively and ongoing debate, this volume underscores and refines the contemporary reevaluation of cargo cults. Scholars of the Pacific region and others interested in new religious movements should find this volume both enlightening and compelling.

Leavitt, Lamont Lindstrom, Ton Otto, Joel Robbins, Jaap Timmer, Robert Tonkinson. **The cargo cult** Kenelm Burridge, 1962. **The Michigan Technic**, 1977. **Cargo Cult as Theater** Dorothy K. Billings, 2002-05-23. Dorothy K. Billings' unique ethnography is based on thirty-five years of anthropological fieldwork in Papua New Guinea. **Cargo Cult as Theater** offers anthropologists and anyone interested in the Johnson cult careful insight into this unlikely cultural phenomenon. *Cargo Cult* Ryan M. Schoelerman, 2005. The Cargo Cult John Thorpe, 1972. *Cargo Cult Hysteria* Michele Stephen, 1977. *Cultural Dynamics of Religious Change in Oceania* Ton Otto, Ad Borsboom, 1997. Developed from papers presented at the first European Colloquium on Pacific Studies, this volume addresses the dynamics of contemporary Oceanic religions. In particular, the contributors investigate how indigenous populations have come to terms with the enormous impact of colonization and missionization while maintaining a distinct cultural and religious identity. *Cultures of Secrecy* Andrew Lattas, 1998. After driving the Japanese out of Papua New Guinea during World War II, the U.S. military forces left their gear and the makings of a cargo cult to the native Kaliai. **CULTURES OF SECRECY** offers a close look at how for fifty years the bush Kaliai in Melanesia have worked these tailings of the western world into their indigenous culture. Lattas shows how cargo cults in general bring together past, present, and future in their curious blending of traditional myths, imported folklore, borrowed state practices and ideologies, and reworked Christian stories. The result is a richly interdisciplinary work that uses ethnography to explore questions of racial experience, gender relations, space, time, death, and the politics of human relations. Never passive imitators, the Kaliai as Andrew Lattas portrays them actively incorporate and transform western beliefs and practices into their own narratives of life, sexuality, and death. The consequences are new myths and histories, new relationships with the ancestral dead, an alternative world of power and knowledge through which the Kaliai accommodate the dominant white culture and its institutions. Lattas examines the racial conflict that has riddled the recent history of the cargo cults. He also describes the cults' demonization by the New Tribes missionaries from the United States who disapprove of the villagers' unorthodox miming of European symbols and practices. His book allows us to see behind the villagers' ambivalence toward white skins as they continue to reinvent their social world. The
