## **State In Tanzania:**

*Department of State Publication*, 1980      **Tanzania State of the Coast Report 2003** Tanzania Coastal Management Partnership, 2003      **Tanzania** Andrew Coulson, 2013-07-25 Tanzania in the 1970s was at the forefront of policy innovation. Near universal primary education, access to health services and supplies of clean water subsequently became mainstream ambitions in Africa and elsewhere. But its policies towards agricultural and industrial production failed and left the country in a particularly weak position when it faced the demands of structural adjustment in the 1980s. This book, originally published in 1982, has been reissued with a new introduction which brings its themes up to the present when income from gold mining and natural gas is making Tanzania one of the most dynamic economies in Africa today. The author, first an economic civil servant in Tanzania, later an academic at the University of Dar es Salaam, was in a unique position to write it, drawing on his own experiences as well as the plethora of ideas and debates in Dar es Salaam in the 1970s. The book has stood the test of time not only because of the range of material it covers but more profoundly because of the approach it takes to the work of Tanzania's founding president Julius Nyerere, sympathetic to his ideas but deeply critical of failures in implementation. 25 short, easily read chapters take the story of Tanzania from pre-colonial times to the present and show how Nyerere was hemmed in by what he inherited from the German and British colonialists who ran the country up to Independence in 1961. It provides an invaluable introduction to anyone coming to the country for the first time and offers a profound assessment of the theoretical debates that have made Tanzania of such interest to students of development.

**Freedom of Speech for Members of Parliament in Tanzania** C. Jesse, 2009 This book is an appraisal of law and practice in light of International Human Rights Law and Best Practices. The book is essential reading for anyone who wants to grasp the scope of the freedom of speech for Members of Parliament and even the general populace in a democratic setting. The book provides valuable insights into why the freedom of speech for Members of Parliament is so important. One of the most important pivotal statements alluded in this book is that freedom of speech is crucial in any democracy because open discussions of members are essential for voters to make informed decisions during elections.

**The Political Economy of Tanzania** Michael F. Lofchie, 2014-01-16 Since gaining independence the United Republic of Tanzania has enjoyed relative stability. More recently the nation transitioned peacefully from single party democracy and socialism to a multiparty political system with a market based economy. But Tanzania's development strategies based on the leading economic ideas at the time of independence also opened the door for unscrupulous dealmaking among political elites and led to economic decline in the 1960s and 1970s that continues to be felt today. Indeed the shift to a market oriented economy was motivated in part by the fiscal interests of government profiteers. The Political Economy of Tanzania focuses on the nation's economic development from 1961 to the present, considering the global and domestic factors that have shaped Tanzania's economic policies over time. Michael F. Lofchie presents a compelling analysis of the successes and failures of a country whose postcolonial history has been deeply influenced by high

ranking members of the political elite who have used their power to advance their own economic interests The Political Economy of Tanzania offers crucial lessons for scholars and policy makers with a stake in Africa's future Ecology, Civil Society and the Informal Economy in North West Tanzania Charles David Smith, 2017-03-02 Based on a decade of first hand experience and secondary research this richly detailed study follows daily life in four villages in Tanzania Funded by the Social Sciences and Humanities Research Council this comprehensive account examines the regional economy determinants of civil society and implications for democratization AIDS population growth refugees crops and goods and implications for development Charles David Smith brings together well over 200 interviews and his own experience of everyday events providing a constructive critique of current initiatives and a potent new direction that has so far been under explored by existing bodies An essential text for all serious students and researchers interested in development **Political Parties and Democracy in Tanzania** Maximilian Mmuya, Amon Chaligha, 1994 **Democratic Transitions in East Africa** F. Wafula Okumu, 2019-07-16 Originally published in 2004 Genocide in Rwanda massive floods of refugees and displaced people in the Horn of Africa violent civil wars in the West African countries of Sierra Leone and Liberia these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule providing the peace and security necessary for political enfranchisement and economic opportunity This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent specifically focusing on Kenya Tanzania and Uganda It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond

*Gender-Inclusive Higher Education in Tanzania* Susan P. Murphy, Perpetua John Urrio, 2024-08-02 Whilst there is an extensive body of research exploring the barriers to gender equality and female empowerment in high income states there are far fewer systematic analyses within lower income settings This book draws on extensive empirical data to analyse gender mainstreaming and gender transformative actions in Tanzanian higher education The book maps the practical landscape of gender mainstreaming across 14 universities in Tanzania and the theoretical landscape of African theories of masculinities and femininities underpinning educational institutions and practices It then assesses the Gender Awareness and Transformation through Education project which was designed to support the development of gender expertise and capacities in research and education at one specific institution across both its administrative and academic units Current and future academics at Dar es Salaam University College of Education were trained in gender based research and education and a strategic plan was developed to guide in the establishment of a Gender Research Centre that will provide gender expertise in research and teaching to the College and over time to other HEIs nationally and regionally By bringing together real world insights from action based research the book demonstrates the impact of real time social change and gender transformation

with implications both for Tanzania and beyond Bringing novel empirical insights and policy recommendations this book will be of interest to researchers and policy makers across the fields of gender studies education and African studies

**Religion and State in Tanzania Revisited** Thomas Ndaluka, Frans Wijzen, 2014 This book looks at the relationship between religion and state in Tanzania as a feature of the Tanzanian social scene from pre colonial colonial times to post colonial times It examines the changes in the character of religion and state relations especially after independence and the way these changes are experienced in different communities particularly by African traditionalists Muslims and Christians The book studies the nature of the relationship between religion and state the way it is conceptualized and experienced and the implications for the democratic aspirations of pluralist Tanzania Series Interreligious Studies Vol 7 Subject History African Studies Religious Studies Politics Political Culture in Tanzania Michael Okema, 1996 This volume explores the specific political orientations of Tanzania attitudes toward the political system and its various parts and attitudes toward the role of the self in the system Capitalism, Socialism and the Development Crisis in Tanzania Norman O'Neill, Kemal Mustafa, 1990 **Development and Democratisation in Tanzania** Samuel S.
