

A photograph of a sunset over a rocky beach. The sky is a gradient of orange and yellow, transitioning into a darker blue at the horizon. The foreground is filled with dark, jagged rocks of various sizes. In the middle ground, waves are breaking against the shore, creating white foam. The overall mood is serene and contemplative.

Stay Alive Longer:

Live right, live longer Ludwig Heinz, 2019-06-10 Staying healthy is at the very top of most people's wish list. The question is which of the abundant, often contradictory advice given in this connection is really sound. The internationally recognized physician and clinical cancer researcher Heinz Ludwig M.D. shows how we can go through life healthier, longer, and more fulfilled. He demonstrates this on the basis of results from scientific research, his personal experience, and examples from his professional life. The five points that he recommends—loving laughter, learning, lifetime fitness, and lighter eating—are easy to understand and achievable by everyone.

Live Longer and Love Life Joy Clary Brown, A. Randall Moss, 2007-04 Merging medical science with biblical principles, this text details the longevity principles in this life that are supported by the latest medical research. Practical Life

The Long Tomorrow Michael R. Rose, 2005-09-15 Equally important, Rose surveys the entire field, offering colorful portraits of many leading scientists and shedding light on research findings from around the world. We learn that rodents given fifteen to forty percent fewer calories live about that much longer, and that volunteers in Biosphere II who lived on reduced caloric intake for two years all had improved vital signs. Perhaps most interesting, we discover that aging hits a plateau and stops at least it does so in fruit flies. *Jacket La. Bulletin*, 1911

Look Younger, Live Longer Francisco Contreras, 2016-06-07 Are you a baby boomer facing the hard facts of aging in your own life? Or are you young and determined to stay that way for as long as possible? Genesis 6:3 suggests that God set the human life span at one hundred twenty years. Breakthrough scientific research has unlocked many of the secrets of aging, proving the biblical age limitation to be correct. Dr. Francisco Contreras offers proven research that will improve your health and perhaps reverse any illness or disease once and for all. According to Dr. Contreras, you have the power right now to greatly increase your life span and to feel better and look younger.
