Staying Together:

Staying Together Kaushani Mondal, 2023-12-19 Staying Together Natureculture in a Changing World is about staying together living together and the dynamics and poetics of togetherness It demonstrates through a strong investment in nature studies nonhuman studies and nature culture and cohabitative readings a commitment to interconnectedness The contributors speak of co habitation a kind of co presence that happens for the good of all and has been happening before we realized its prevalence They argue co beingness is deeply founded in difference differentiation and dispersion They explore and investigate this fraught and profound weness at a variety of levels and look at forms of biocentrism and bioegalitarianism where there are opportunities for the affirmation of difference as much as declaration of complexities in co specicism co occurrence and co being The book answers the following questions How can the complexity of sustainability and survivability lead us to re planetize the planet Are we unworlding an Earth where the meaning and ethos being together demand reinvention and rearticulation
