Frayne,Johanna H. Stuckey,2021-02-08 From the tragic young Adonis to Za hapuna first among goddesses this handbook  
provides the most complete information available on deities from the cultures and religions of the ancient Near East  
including Anatolia Syria Israel Sumer Babylonia Assyria and Elam The result of nearly fifteen years of research this handbook

Arranged alphabetically the entries range from multiple pages of information to a single line sometimes all that we know  
about a given deity Where possible each record discusses the deity s symbolism and imagery connecting it to the myths  
rituals and festivals described in ancient sources Many of the entries are accompanied by illustrations that aid in  
understanding the iconography and they all include references to texts in which the god or goddess is mentioned Appropriate  
for both trained scholars and nonacademic readers this book collects centuries of Near Eastern mythology into one volume It  
will be an especially valuable resource for anyone interested in Assyriology ancient religion and the ancient Near East

*Babylon* Paul Kriwaczek,2012-03-27 Civilization was born eight thousand years ago between the floodplains of the Tigris  
and Euphrates rivers when migrants from the surrounding mountains and deserts began to create increasingly sophisticated  
urban societies In the cities that they built half of human history took place In Babylon Paul Kriwaczek tells the story of  
Mesopotamia from the earliest settlements seven thousand years ago to the eclipse of Babylon in the sixth century BCE  
Bringing the people of this land to life in vibrant detail the author chronicles the rise and fall of power during this period and  
explores the political and social systems as well as the technical and cultural innovations which made this land extraordinary  
At the heart of this book is the story of Babylon which rose to prominence under the Amorite king Hammurabi from about  
1800 BCE Even as Babylon s fortunes waxed and waned it never lost its allure as the ancient world s greatest city Engaging  
and compelling Babylon reveals the splendor of the ancient world that laid the foundation for civilization itself      A History

before 3000 B C in southern Mesopotamia Urban centers replaced the pastoral village cultures and specialized societies with  
priests scribes craftsmen and farmers came into existence The people responsible for this urban revolution as it has been  
called were the Sumerians They entered Mesopotamia sometime during the fifth millennium and developed the first known

script a system of pictographs that later evolved into wedge shaped cuneiform signs Through the millennia southern Mesopotamia remained an important center strategically located on land and water routes to Egypt and the Mediterranean world in the west and to the Indus Valley and Central Asia in the east The capital cities of the Sumerians Akkadians Babylonians Kassites Seleucids Parthians and Sasanians all lay in this fertile agricultural region Because southern Mesopotamia is poor in natural resources primarily metal stone and wood the inhabitants of Sumer established contacts at an early period with neighboring societies with priests scribes craftsmen and farmers came into existence The people responsible for this urban revolution as it has been called were the Sumerians They entered Mesopotamia sometime during the fifth millennium and developed the first known script a system of pictographs that later evolved into wedge shaped cuneiform signs Through the millennia southern Mesopotamia remained an important center strategically located on land and water routes to Egypt and the Mediterranean world in the west and to the Indus Valley and Central Asia in the east The capital cities of the Sumerians Akkadians Babylonians Kassites Seleucids Parthians and Sasanians all lay in this fertile agricultural region Because southern Mesopotamia is poor in natural resources primarily metal stone and wood the inhabitants of Sumer established contacts at an early period with neighboring countries rich in raw materials Excavations of Uruk period ca 3500 3100 B C settlements have revealed that the Sumerians traded with peoples living in Anatolia Syria and Iran and maintained outposts in these lands By the mid third millennium B C gold silver tin copper and semiprecious stones carnelian and lapis lazuli were imported from the regions east and west of Mesopotamia This lively trade is documented in the cuneiform texts and in the rich and exotic burials in the Royal Cemetery at Ur see fig 66 A thriving textile industry developed in Sumer and the woven goods manufactured in the south formed an important part of its foreign trade The Sumerian language does not belong to a recognized linguistic group and consequently the ethnic origin of the Sumerians is not yet known They were succeeded however by a Semitic people the Akkadians who had entered countries rich in raw materials Excavations of Uruk period ca 3500 3100 B C settlements have revealed that the Sumerians traded with peoples living in Anatolia Syria and Iran and maintained outposts in these lands By the mid third millennium B C gold silver tin copper and semiprecious stones carnelian and lapis lazuli were imported from the regions east and west of Mesopotamia

*The Greatest Cities of Ancient Mesopotamia* Charles River Editors, 2025-05-01 In southern Iraq a crushing silence hangs over the dunes For nearly 5 000 years the sands of the Iraqi desert have held the remains of the oldest known civilization the Sumerians When American archaeologists discovered a collection of cuneiform tablets in Iraq in the late 19th century they were confronted with a language and a people who were at the time only scarcely known to even the most knowledgeable scholars of ancient Mesopotamia The exploits and achievements of other Mesopotamian peoples such as the Assyrians and Babylonians were already known to a large segment of the population through the Old Testament and the nascent field of Near Eastern studies had unraveled the enigma of the Akkadian language that was widely used throughout the region in

ancient times but the discovery of the Sumerian tablets brought to light the existence of the Sumerian culture which was the oldest of all the Mesopotamian cultures Although the Sumerians continue to get second or even third billing compared to the Babylonians and Assyrians perhaps because they never built an empire as great as the Assyrians or established a city as enduring and great as Babylon they were the people who provided the template of civilization that all later Mesopotamians built upon The Sumerians are credited with being the first people to invent writing libraries cities and schools in Mesopotamia Ziskind 1972 34 and many would argue that they were the first people to create and do those things anywhere in world For a people so great it is unfortunate that their accomplishments and contributions not only to Mesopotamian civilization but to civilization in general largely go unnoticed by the majority of the public Perhaps the Sumerians were victims of their own success they gradually entered the historical record established a fine civilization and then slowly submerged into the cultural patchwork of their surroundings They also never suffered a great and sudden collapse like other peoples of the ancient Near East such as the Hittites Assyrians and Neo Babylonians did A close examination of Sumerian culture and chronology reveals that the Sumerians set the cultural tone in Mesopotamia for several centuries in the realms of politics governments arts literature and religion The Sumerians were truly a great people whose legacy continued long after they were gone Even today the world owes the Sumerians a tremendous amount When Western Europe was still in the Stone Age it was the Sumerians who invented writing and the wheel divided time into minutes and seconds tamed nature and built gigantic cities They embraced culture and the arts and their caravans crossed the desert opening up the first trade routes Their myths and legends inspired various origin stories and their memory lives on in the Old Testament They wrote the history of the birth of mankind The heritage of the Sumerian civilization and their successors is everywhere

**Legends of Babylon and Egypt in Relation to Hebrew Tradition** Leonard W. King, 2010-01-01 The interconnected influences of different traditions of ancient mythology on one another consumed the archaeological efforts of the late 19th and early 20th century though much work in Britain and Europe was interrupted by the outbreak of World War I This fascinating 1918 study adapted from a series of lectures delivered to the British Academy in 1916 rings with the frustration of its British author A renowned classical scholar King incorporates the then latest research from American academics into his intriguing analysis of the impact of Babylonian and Egyptian mythology on the foundations of Judaism Drawing on newly discovered five thousand year old texts he weaves a narrative of the folklore of human origins unbroken from our earliest collective memories His comparison of the creation and deluge stories from a range of ancient Old World civilizations remains compelling today British classical scholar LEONARD W KING 1869 1919 was Assistant Keeper of Egyptian and Assyrian Antiquities at the British Museum and professor of Assyrian and Babylonian archaeology at the University of London King s College He also wrote Babylonian Magic and Sorcery 1896 and A History of Sumer and Akkad 1910

Tullock,1992 A revised and updated survey of Old Testament history and literature this work discusses the development of Old Testament literature and provides geographical and historical background information It follows the traditional order of the books except Ruth through 2 Kings
