

# Summer Eye Patterns

## Summer

Soft petals, unorganized white webbing

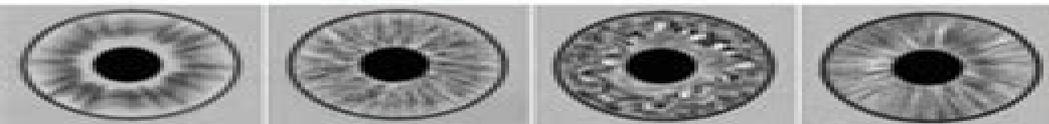

- \* Summer eyes have a blue base. Eye colors appear cool, soft, muted, and grayish (blue, hazel, grey, amber)
- \* The primary characteristic of the summer eye pattern is the presence of Fuch's crypts: diamond shaped structures that resemble uneven petals. The petal shape will only be slightly darker than the rest of the iris (if there is a lot of contrast, see winter).
- \* Cloudy, smoky look or texture of crackled glass pattern in the iris is very common.
- \* There is a soft separation between the iris and the whites of the eye.
- \* Unorganized white webbing patterns is also common (organized streams may indicate winter)

Light summer: eye can contain both a halo and cloudiness  
 Soft summer: eye can have both cloudiness and speckles  
 Cool summer: eye can contain spokes and cloudiness

Here are some summer eyes with influence of other season's eye patterns.
