cataclysms happened Gobelki Tepe Atlantis the Yonaguni Monuments Gulang Padang His conclusion from a review of this literature in contradiction to Graham Hancock s position is that advanced human societies did not in fact exist Stone Age peoples yes but some advanced mathematically sophisticated antediluvian culture does not succeed in passing through Kroth s filter The evidence is just not there Perhaps if Atlantis one day is discovered this theory will be revised but as it stands the earliest sophisticated and advanced human culture still remains that of Sumeria of only 6 000 years ago Part III of the text presents a uniquely controversial hypothesis to explain the rapid and exponential rise of human society In a mere 6 000 years human culture and technology developed so rapidly that conventional evolutionary biology and mainstream anthropology have enormous difficulty trying to explain how that all happened Why did it take Homo sapiens 196 500 years to invent a wheel Why was it 194 600 years before he got the idea of cultivating potatoes Kroth provides a provocative explanation for these anomalies and vicissitudes of human cultural advance **Legislative Document** New York (State). Legislature,1919
