Syria Jordan:

Syria, Lebanon, and Jordan Laura Etheredge Assistant Editor, Middle East Geography, 2011-01-15 Presents histories of Syria Lebanon and Jordan and the geographic economic and social factors that have come to define them **The Politics of Refugee Policy in the Global South** Ola G. El-Taliawi, 2024-06-15 Mass refugee movements represent a complex policy problem to host governments as they challenge existing socio economic and political structures While scholarship on refugee migration tends to centre on the Global North most refugees actually reside in the Global South where the capacity to provide assistance is limited Shifting the focus from sensationalist rhetoric about mass migration to the North *The Politics of Refugee Policy in the Global South* provides a comparative analysis of Lebanon s and Jordan s responses to the Syrian refugee movement one of the largest displacements in modern history Through extensive interviews and process tracing Ola El Taliawi uncovers the complex realities of refugee hosting and the hard choices governments make in light of this challenge Building on the concept of complexity El Taliawi employs a unique methodology and analytical approach painting a nuanced picture of asylum provision and identifying a spectrum of refugee hosting models More than ever we need a better understanding of the unique politics of refugee policymaking in the Global South This incisive book offers key insights for effective governance and reform of the global refugee regime **Fatal Ally** Tim Sebastian, 2021-09-02 Your closest friend could be your deadliest foe A British intelligence operation to recover an asset from Moscow goes catastrophically wrong compromised by a rogue element at the highest level of US government So Margo Lane one of MI6 s top agents is ordered to deliver a message the White House won t forget Satisfied at the chance for retribution Margo embarks on a mission that will take her from the violent heart of Russia to the edge of the civil war in Syria until she is led to a terrifying personal decision she hoped she would never have to make And Margo s world is one where your conscience can get you killed **The Threat of Force in International Law** Nikolas Stürchler, 2007-07-19 Threats of force are a common feature of international politics advocated by some as an economical guarantee against the outbreak of war and condemned by others as a recipe for war Article 2 4 of the United Nations Charter forbids states to use threats of force yet the meaning of the prohibition is unclear This book provides the first comprehensive appraisal of the no threat principle its origin underlying rationale theoretical implications relevant jurisprudence and how it has withstood the test of time from 1945 to the present Based on a systematic evaluation of state and United Nations practices the book identifies what constitutes a threat of force and when its use is justified under the United Nations Charter In so doing it relates the no threat principle to important concepts of the twentieth century such as deterrence escalation crisis management and what has been aptly described as the diplomacy of violence **Foreign Aid of Gulf States** Mohammad Yaghi, Hanaa Almoaibed, Silvia Colombo, 2025-09-29 This book explores how Gulf States foreign aid strategies have transformed in the wake of 9 11 and the 2011 Arab uprisings It traces the shift from a solidarity based model to aid increasingly driven by political and military objectives particularly in conflict zones like

Yemen Libya and Syria The book analyzes enduring traits and evolving trends in aid allocation highlighting a growing emphasis on humanitarian assistance transparency and alignment with global governance norms Yet a persistent preference for bilateral aid raises questions about long term impact and transparency The politicization of aid post 2011 reveals how Gulf donors wield aid as a tool of geopolitical influence Looking ahead the book outlines a research agenda that examines the rebranding of Gulf aid the implications of its militarization the role of economic diversification and the influence of shifting regional dynamics such as Saudi Iran relations and the Abraham Accords on future strategies This book is essential reading for scholars policymakers and practitioners in international development political science Middle Eastern studies and global governance The chapters in this book were originally published as a special issue of Third World Quarterly *Palestine and Syria, etc* Karl Baedeker,1898 **Palestine and Syria** Karl Baedeker (Firm),Albert Socin,1898 Studies in Crisis Behavior Michael Brecher, This volume a collection of thir teen papers presents a new ap proach to the study of interna tional crisis behavior of individual states The opening essay by the editor sets out the terms of refer ence in the form of a model re search question and three tables defining the attributes of the crisis actor the dimensions of the crisis and the characteristics of the crisis decisional unit The following nine papers are in depth studies of individual actor crises which occurred between the years 1939 and 1976 These cases represent small medium and large states with different economic and mili tary capabilities and span the en tire globe Europe North and Central America South and Southeast Asia and the Middle East Preliminary comparative findings for the nine vertical studies are then summarized Initial findings on horizontal research offering systematic comparisons on patterns of be havior in Middle East crisis com prise the final paper in the group of empirical studies The volume concludes with two papers one on the quality of decision making and the other a review of the literature on crisis anticipation deci sion making and management The papers in this volume orig inally appeared in the Jerusalem Journal of International Relations **The Giant Cities of Bashan and Syria's Holy Places** John Leech Porter,Josias Leslie Porter,1873 **Cross-Border Resource Management** Rongxing Guo,2005-07-25 This essay is about the management of natural and environmental resources in cross border areas It explores a group of geographical political legal economic and cultural factors that arise when political units such as sovereign countries dependent states and other administrative units seek to utilize natural and environmental resources efficiently and equitably while minimizing the resultant damages for example prevention of resource degradation and preservation of the physical environment Examines various types of cross border areas at both international and sub national levels throughout the world as well as their geographical political economic and cultural influences on the cross border resource management Uses the latest international and area data resulting in new findings for cross border environmental activities Contains a large number of case studies throughout the world including four in depth case studies of cross border resource management Middle East Record Dishon,1973-10 The Encyclopædia Britannica ,1893 **A History of the Peace Conference of Paris** Harold
