John Portera, D.M.D.,2013-11 The killer left nothing visible on the teenager s body nothing the attack was silent and unsuspecting No fingerprints no DNA not a clue was left at the scene or on the boy s body Three teenagers entered an environment wherein dwelled a deadly killer They left it laughing and full of life Two weeks later one was dead His body bore no marks only symptoms of a sickness progressively worsening each day Physicians relentlessly sought identifying cause of symptoms Each drug known to counter what the laboratory results reflected proved to be

ineffective Finally the teenager lapsed into a coma then cardiac arrest Death had dropped its darkened drape Death came ten days after Terry s first symptom a stiff neck upon awakening and only four days after the threesome cheerfully walked away from where the killer cleverly concealed itself a perfect place for enticing the boys to enter It struck its unsuspecting blow at a precise moment one when the victim s involuntary action between man and matter favored the killer the sudden silent strike was lethal enough to create Terry s lingering death the irresistible setting the boys entered was on an unusually warm February day in Florida Indisputable identification of the killer came from a medical pathologist His words were the young man died of Primary Amebic Meningoencephalitis PAM It s rather uncommon but it s a fatal infection of the brain I believe Terry inhaled a deadly parasitic pathogen while in the lake a single celled organism known as Naegleria fowleri Water containing this amoeba if inhaled deeply into the nasal passageways causes an inevitable death the doctor didn t describe the autopsy sight of the boy s brain Had he done so he would have described a brain resembling moth eaten wool more than human brain tissue Doctors treated a similar fatality the previous December eighteen year old standout athlete Earl Baley of Orlando But physicians declined public disclosure of an enigma concerning the PAM deaths But after the third death they reached a reasonable conclusion one as unreasonable as imagination could remove them from intellect Finally a female Immunologist and Microbiologist publicly explained the enigma of her peers It s apparent we have reached a consensus of opinion Today I m compelled to tell you two elements are missing from the proposition that proposes accidental death through Naegleria fowleri One is the fatalities were at a time of year when our waters are not consistently seventy two degrees or higher in order for Naegleria to thrive the other is the only other sensible conclusion is perhaps something more evil and sinister The Child's Unconscious Mind Wilfrid Lay,1919 **HRMarketing [Engelstalg]** Caroline Welsing,2006

Devil's Bargains Hal Rothman,1998 The West is popularly perceived as America s last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America s land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil s bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry s darker side He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of

their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore *New York Court of Appeals. Many Wests David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West's regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions *California. Elkind, 1998 Combining insights from urban western and environmental history Elkind examines the ways that people's reactions to their natural surroundings drive both demand for improved public services and political reform She traces public works development in the Gilded Age and Progressive Era to explain how these programs united each city with

its suburban neighbors creating new political entities and allowing Boston and Oakland to appropriate rural resources and thus overcome the environmental limits to their continued growth and prosperity She also shows how when the power of regionalism is turned to urban development environmental and social costs are sometimes overlooked *Cinematic Cold War* Tony Shaw, Denise Jeanne Youngblood, 2010 The first book length survey of cinema s vital role in the Cold War cultural combat between the U S and the USSR Focuses on 10 films five American and five Soviet both iconic and lesser known works showing that cinema provided a crucial outlet for the global debate between democratic and communist ideologies

Jefferson Davis, Confederate President Herman Hattaway, Richard E. Beringer, 2002 Now two Civil War historians Herman Hattaway and Richard Beringer take a new and closer look at Davis s presidency In the process they provide a clearer image of his leadership and ability to handle domestic diplomatic and military matters under the most trying circumstances without the considerable industrial and population resources of the North and without the formal recognition of other nations BOOK JACKET **Distilling Democracy** Jonathan Zimmerman, 1999 Zimmerman educational history New York U examines the history of Scientific Temperance Instruction a curriculum on the evils of alcohol which was originally developed and advocated by a grassroots movement and ultimately was mandated in all American schools for a time He traces today s debate on drug and alcohol education to issues raised in this seminal episode The debate over STI claims Zimmerman was really about the balance between expertise and populist desire in determining what should be taught to America s children Annotation copyrighted by Book News Inc Portland OR
