Kabbalah and Postmodernism Sanford L. Drob,2009 Kabbalah and Postmodernism A Dialogue challenges certain long held philosophical and theological beliefs including the assumptions that the insights of mystical experience are unavailable to human reason and inexpressible in linguistic terms that the God of traditional theology either does or does not exist that systematic theology must provide a univocal account of God man and the world that truth is absolute and not continually subject to radical revision and that the truth of propositions in philosophy and theology excludes the truth of their opposites and contradictions Readers of Kabbalah and Postmodernism will be exposed to a comprehensive mode of theological thought that incorporates the very doubts that would otherwise lead one to challenge the possibility of theology and religion and which both preserves the riches of the Jewish tradition and extends beyond Judaism to a non dogmatic universal philosophy and ethic

Morality, Violence, and Ritual Circumcision Na'ama Carlin,2022-11-30 This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence Intervening in contemporary debates on the Jewish ritual of circumcision it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent An examination of the intersection of violence and morality this book rejects the binary logic on which popular debates on circumcision hinge arguing that in some instances violence can be a productive experience and can thus be considered beyond good and bad Engaging with the works of Jacques Derrida the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence the violence of being which resists definition through binary oppositions In so doing the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies As such this volume offers a compelling framework that investigates the relationship between bodies identities ethics and violence and will therefore appeal to scholars of sociology social theory and religion with interests in the sociology of the body ritual and cultural studies
