*The Bunce* Michael De Larrabeiti, 1980      *A Detailed History on the Trans-Atlantic African Slave Trade* Oswald Woode, 2023-11-22

This African slave trade history is a detailed account of Africa's slave history that started in the fifteenth century. It was started by the southern European Portuguese monarchs, the family of royal lineages. Portugal's golden age of discovery in sea exploration led Portugal to Africa by sea by the 1430s. Then later in 1492, Christopher Columbus accidentally landed on the Native Indian American continent. Columbus's trip was sponsored by Spanish royal families. That was the period when the Roman Catholic nations Portugal and Spain were the dominant European nations. Spain liberated her whole territory from Islamic occupation in late 1400s. The Catholic Church was also very involved in signing treaties with their Roman Catholic spheres of influence nations. By then Portugal already monopolized the African trade in African goods and human slave trade in the Portuguese dominated African territories. Portugal first started shipping the African slaves to Europe. With Spain's possession of the Americas, this changed the African slave trade greatly. The American territory promoted the biggest international African slave trade and economic gains for European prosperity to this day. By the sixteenth century, Catholic religious theocracy became challenged by other northern European powers. The reformation movement in northern Europe led to the breaking away by northern European realms from the dominant Catholic religion and established their Protestant Christian religions. These new emerging northern European realms also challenged Portugal's domination and grip of Africa's territories and Africa's slave trade and goods. Based on the treaties signed between Portugal and Spain by Catholic popes, Portugal was supplying the slaves and Spain was procuring and shipping the African slaves from Portugal's control and forced African slave labor to develop Spain's Americas through extended overseas colonies and Portugal's Brazil new colony. Meanwhile, Spain's takeover was contracting with European mercenaries, the conquistadors, to capture the American land from the Native Indians, the original occupiers of the Americas. The paradigm or blueprint of this African slave trade pattern already established by the Portuguese was later replicated by other European realms in Africa and the Americas, and they continued the lucrative African slave trade for more than two hundred years. The establishing of extended overseas territories or colonies by Europeans to build their economies both at home in Europe and the Americas using forced African labor, goods, and repatriation of European colonists to establish the new overseas extended to the Americas. This book is information rich with the African slave trade history dynamics, the European realms, names of monarchs that participated, European slave wars, rivalries, slave laws, European merchants, African noblemen and merchants, slave ships, religions, European and African rituals, main African territories, overseas sea routes, used African chiefs, merchants, European slave ships, ship captains, accounts, numbers of slaves shipped per trip, goods exchanged, major African tribes, stories of names of slave warriors, slave contracts, European slave treaties, African slave harbors, slave rebellions on land, on ships, the making of American colonies, America's Independence, and Latin American countries, the making of the first British Crown.
