## Teen Skin:

Teen Makeup Linda Mason, 2004 Tweens and teens will love this fun photo packed guide to makeup from one of the industry's top professionals. Novice users get all the basics they need: tips on tools and application techniques, ways to use color and steps for basic skin care. More than 35 looks are then grouped by expression to represent the many moods of teen girls: Classic, sweet, cool, sporty, retro, glamorous, and outrageous. Each mood is made up of five or more real girls with a variety of coloring and face shapes. As readers go through the book, they see each girl transformed with numerous looks. Teens also learn to express their astrological personality with a color palette and special look for each zodiac sign. Teen Makeup is not about covering up defects or hiding who you are, but about the empowering ways makeup can be used to express your true self. For girls ages 12 and up. A cast of real-life teens are transformed with numerous looks throughout the book. Author was head makeup artist for Helena Rubenstein and has worked with other top cosmetics companies including Lancôme. Includes tips showing how glasses and braces can be transformed with makeup. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers.
