## - WHY IS TEEN ALCOHOL USE A PROBLEM? -

Adolescence is the last period of growth a person experiences before adulthood and sets the stage for the bulk of adult physiological functions.

With the introduction of intoxicants in the vulnerable stages of building, brain development, as well as the central nervous system, can suffer significant impairment and rewire these vital neural pathways.

  
upset hormonal balance

  
risk-taking behavior

  
slower brain & central nervous system development

## - REASONS FOR TEEN ALCOHOL ADDICTION -

The most common place children and teens are exposed to alcohol use is at home. Easy access & less monitoring

The value and draw of acceptance in a child's life cannot be underestimated, especially when they feel they are misunderstood by family and other adults

Learning by association. Peers and family model the behavior and it is quickly adopted in order to "have fun" and to "relax"

Genetic alcohol predisposition, or co-occurring mental health issues, or a history of trauma  
Those who already suffer from mental health disorders such as depression & mood swings

## - HOW TO SPOT TEEN ALCOHOLISM -

Uncharacteristic upsets at school with a resulting decline in grades and social gatherings

Increase teen rebelliousness

A change in peer groups to those who also engage in drinking

More obvious signs like empty bottles in the trash or reduced levels in bottles stored in the home as well as lack of coordination, slurred speech, and being overly giddy or silly

Low energy, lethargic, & mood swings

Because alcoholism in teens can lead to a multitude of risks including further experimentation with drugs, legal ramifications like arrests and serious injuries, death, exposure to unplanned pregnancy, and being involved in or the source of violent behavior, if you feel you need professional help, the professionals at Utah's Lifeline For Youth can offer that hand to help your family find peace in a time where there remains so much uncertainty and so many questions.
