Television Behind The Screen:

Para-Interactivity and the Appeal of Television in the Digital Age Oranit Klein-Shagrir, 2017-08-15 Para Interactivity and the Appeal of Television in the Digital Age focuses on broadcast television's attempts to transition from a mass medium to one which addresses viewers as potentially active participants in simulated interactive communication. It explores both the transformations and the continued popularity of television in an age of social media and competition from interactive digital media. It presents the concept of para interactivity which contains features or elements that echo interactive communication processes considered characteristic of digital media and participatory culture translated into television's language. This novel idea helps to understand contemporary television and identify current and traditional strategies it employs in order to survive in a changing media environment.

Uncomfortable Television Hunter Hargraves, 2022-12-19 From *The Wire* to *Intervention* to *Girls* postmillennial American television has dazzled audiences with novelistic seriality and cinematic aesthetics. Yet this television is also more perverse: it bombards audiences with misogynistic and racialized violence, graphic sex, substance abuse, unlikeable protagonists, and the extraordinary exploitation of ordinary people. In *Uncomfortable Television* Hunter Hargraves examines how television makes its audiences find pleasure through feeling disturbed. He shows that this turn to discomfort realigns collective definitions of family and pleasure with the values of neoliberal culture. In viscerally violent dramas, cringeworthy ironic comedies, and trashy reality programs alike, televisual unease trains audiences to survive under late capitalism, which demands that individuals accept a certain amount of discomfort, dread, and irritation into their everyday lives. By highlighting how discomfort has been central to the reorganization and legitimization of television as an art form, Hargraves demonstrates television's role in assimilating viewers into worlds marked by precarity, perversity, and crisis.

The Screen Media Reader Stephen Monteiro, 2017-01-12 Offers key historical and interpretative texts on the development and role of the screen in communications and the social sphere.

Digital Television Systems Marcelo S. Alencar, 2009-03-19 Digital television is a multibillion dollar industry with commercial systems now being deployed worldwide. In this concise yet detailed guide, you will learn about the standards that apply to fixed line and mobile digital television, as well as the underlying principles involved. The digital television standards are presented to aid understanding of new systems in the market and reveal the variations between different systems used throughout the world. Discussions of source and channel coding then provide the essential knowledge needed for designing reliable new systems. Throughout the book, the theory is supported by over 200 figures and tables, whilst an extensive glossary defines practical terminology. This is an ideal reference for practitioners in the field of digital television. It will also appeal to graduate students and researchers in electrical engineering and computer science and can be used as a textbook for graduate courses on digital television systems.

TV Transformations Tania Lewis, 2013-09-13 The past decade has seen an explosion of lifestyle makeover TV shows. Audiences around the world are being urged to renovate everything from their homes to their pets and

children while lifestyle experts on TV now tell us what not to eat and what not to wear Makeover television and makeover culture is now ubiquitous and yet compared with reality TV shows like Big Brother and Survivor there has been relatively little critical attention paid to this format This exciting collection of essays written by leading media scholars from the UK US and Australia aims to reveal the reasons for the huge popularity and influence of the makeover show Written in a lively and accessible manner the essays brought together here will help readers make sense of makeover TV by offering a range of different approaches to understanding the emergence of this popular cultural phenomenon Looking at a range of shows from The Biggest Loser to Trinny and Susannah Undress essays include an analysis of how and why makeover TV shows have migrated across such a range of TV cultures the social significance of the rise of home renovation shows the different ways in which British versus American audiences identify with makeover shows and the growing role of lifestyle TV in the context of neo liberalism in educating us to be good citizens This book was published as a special issue of Continuum Journal of Media and Cultural Studies
