The American Store Window Leonard S. Marcus, 1978     *The American Stationer and Office Outfitter*, 1917     **The American Stationer**, 1900     *The Professionalization of Window Display in Britain, 1919-1939* Kerry Meakin, 2024-09-05

This book provides the first comprehensive history of window display as a practice and profession in Britain during the dynamic period of 1919 to 1939. In recent decades the disciplines of retail history, business history, design, and cultural history have contributed to the study of department stores and other types of shops. However, these studies have only made passing references to window display and its role in retail society and culture. Kerry Meakin investigates the conditions that enabled window display to become a professional practice during the interwar period, exploring the shift in display styles, developments within education and training, and the international influence on methods and techniques. Piecing together the evidence, visual and written, about people, events, organisations, exhibitions, and debates, Meakin provides a critical examination of this vital period of design history, highlighting major display designers and artists. The book reveals the modernist aesthetic developments that influenced high street displays and how they introduced passers-by to modern art movements.

This book reveals and explores the thriving animation culture in midtown Manhattan, the World's Fair, art galleries, and cinemas during a vibrant period of artistic, commercial, and industrial activity in New York City. Alongside a detailed investigation of animated film at the time, ranging from the abstract works of Mary Ellen Bute and Norman McLaren to the exhibition practices of the Disney Studios and the New York World's Fair, *New York's Animation Culture* examines a host of other animated forms, including moving dioramas, illuminated billboards, industrial displays, gallery exhibitions, mobile murals, and shop windows. In this innovative microhistory of animation, Moen combines the study of art, culture, design, and film to offer a fine-grained account of an especially lively animation culture that was seen as creating new media, expanding the cinema experience, giving expression to utopian dreams of modernity, and presenting dynamic visions of a kinetic future.
