The Films of Robert Wise Richard C. Keenan, 2007-08-14 From his early days as a film editor at RKO studios where he helped Orson Welles shape Citizen Kane to his success as a director and producer of musical blockbusters of the 1960s Robert Wise had a long and illustrious film career Unlike contemporaries such as Alfred Hitchcock John Ford or Howard Hawks however Wise s films lack any clearly discernible characteristics to signify his work There are few striking camera angles or visual flourishes that might distract from the primary obligation to present the story And like Hawks Wise never specialized in one or two genres but brought his directing skills to all manner of films His work as a director resists auteur categorization and that is a chief reason why some critics have been unduly negative in their consideration of his work In The

Films of Robert Wise Richard Keenan examines the nearly forty features that represent the director's career from *Curse of the Cat People* in 1944 to *A Storm in Summer* 2001 the only television production Wise ever directed Keenan offers a reappraisal of Wise's films so that the true quality of his work can be better appreciated Keenan argues that if there was a flaw in Robert Wise as a director it was that he lacked the ego and temperament of the artist which was not necessarily a flaw at all Indeed Wise was a conscientious craftsman who saw his work not primarily as a vehicle for his own ideas and visual style but as an opportunity to present narrative that quite simply engages informs and entertains It was this perspective that helped produce a number of memorable films over the years including the gritty noir *Born to Kill* the one two punch of *The Set Up* and *Somebody Up There Likes Me* the sci fi prophecy *The Day the Earth Stood Still* and the gripping indictment of capital punishment *I Want to Live* classics all Wise also won a pair of Oscars for two of the most memorable not to mention successful musicals of all time *West Side Story* and *The Sound of Music* Drawing on more than 30 hours of interviews with Wise as well as additional interviews with a number of his collaborators Keenan offers a welcome reassessment of the director's work In his analysis of each film Keenan reveals both Wise the craftsman and the artist In doing so *The Films of Robert Wise* finally confers upon this underappreciated director the recognition he deserves [The Video Source Book](#) David J. WEINER,1990 **TLA Film, Video, and DVD Guide 2002-2003** David Bleiler,2001-11-03 A film video and DVD guide for the true lover of the cinema this volume focuses on independent and international films as well as the best of the mainstream 450 photos throughout *Facets Movie Lovers Video Guide* Facets Multimedia Inc,1998 The most select best of list available anywhere *TLA Video & DVD Guide 2004* David Bleiler,2003-10-24 This is the absolutely indispensable guide to worthwhile cinema It includes over 10 000 entries on the best of film and video that a real film lover might actually want to see **The Digitization of Cinematic Visual Effects** Rama Venkatasawmy,2013 *The Digitization of Cinematic Visual Effects Hollywood's Coming of Age* by Rama Venkatasawmy analyzes how the Hollywood cinema industry's visual effects applications have not only motivated the expansion of filmmaking praxis they have also influenced the evolution of viewing pleasures and spectatorship experiences Following the digitization of their associated technologies VFX have been responsible for multiplying the strategies of representation and storytelling as well as extending the range of stories that can potentially be told onscreen By the same token the visual standards of the Hollywood film's production and exhibition have been growing in sophistication On the basis of displaying groundbreaking VFX immaculately realized through the application of cutting edge technologies and craftsmanship and of projecting such a significant degree of visual innovation and originality certain Hollywood movies have established techno visual trends and industrial standards for subsequent filmmaking practice Hollywood cinema's entry into the digital realm is intertwined with the intensification of conglomeratic practices within the movie business the domain of techno scientific R D in filmmaking and the unification of corporate media information technology and entertainment Hence the standardization of and convergence toward the digital medium is

emblematic of Hollywood cinema's techno industrial evolution in the late twentieth century Accordingly this volume identifies various synergies and partnerships between VFX providers movie studios graphic designers and more that have emerged from a progressive growth of awareness in Hollywood of the digital medium's potential
