The Anti Redeemers

Glenn Feldman

The Anti Redeemers:

The Redeemer's Return Arthur Walkington Pink, 1918 **The Anti-redeemers** Michael R. Hyman, 1990-01-01 *The divine Redeemer and His Church* Edward Douglas, 1896 **Short of a Revolution** Craig Thurtell, 2026-01-13

Chronicling the rise and fall of North Carolina's fusion movement, this book illuminates an intricate interplay between politics, economic agendas, and racism. It examines how wealthy agriculturalists, industrialists, lawyers, merchants, and railroad leaders manipulated the state's political, economic, and social structures to assert dominance and maintain white supremacy, undermining the power gained by African Americans during Reconstruction. By the mid-1890s, however, Black and white Republicans and supporters of the smaller Peoples Party formed a coalition known as fusion, upending two decades of the Democratic Party's white elite political domination in North Carolina. After four years, the Democratic Party mobilized under the menacing banner of white supremacy and led by conservative pro-business white people restored the party's control over the state government. Craig Thurtell contends that an examination of this period reveals that race was not the sole factor in the Democratic Party's quest for control. Instead, elite white men sought to establish a new social order influenced by class divisions, and *Short of a Revolution* provides a comprehensive analysis of these dynamics, revealing the multifaceted motivations behind the political shifts of late nineteenth-century North Carolina.

The Disfranchisement Myth Glenn Feldman, 2004. This study challenges decades of scholarship on an ever-topical but misunderstood impulse behind disfranchisement in America: racism. Drawing on court documents, voting statistics, civil rights, and labor records, and many other sources, Feldman shows that the racist appeals of Alabama's white planters, industrialists, and other conservatives motivated poor whites in far greater numbers and for more complex reasons than received knowledge concedes. The seemingly natural allies of blacks, poor whites constituted most of the white opposition to disfranchisement, says Feldman. Yet the number of poor whites who backed the new constitution was greater. Ultimately, many would be disfranchised by the very measures they had believed were aimed only at blacks. In that sense, says Feldman, poor whites were more parties to their own demise than the mere victims of circumstance.
