The History of the American People Charles Austin Beard, 1937 **A History of the American People** Woodrow Wilson, 1918 *A Short History of the American People* Edna Henry Lee Turpin, 1911 **A History of the American People** James Truslow Adams, 2021-05-19 Originally published in 1933 and written by America s historian James Truslow Adams this 2 volume set tells the story of the rise of the American nation encompassing from economics religion social change and politics from settlement to the Great Depression Due emphasis is given to the inter connectedness of America with Europe both in terms of cultural heritage and political and military entanglements Extensive in size and scope and richly illustrated with half tones and maps these volumes balance a historical narrative with philosophical interpretation whilst touching on as many aspects of American life and history as possible **The American People** Frederick Jeffrey, 2000-07

A History of the American People James Truslow Adams, 2020-09-03 Originally published in 1933 and written by America s historian James Truslow Adams this volume tells the story of the rise of the American nation encompassing economics religion social change and politics from settlement to the Civil War Due emphasis is given to the inter connectedness of America with Europe both in terms of cultural heritage and political and military entanglements Extensive in size and scope and richly illustrated with half tones and maps these volumes balance a historical narrative with philosophical interpretation

whilst touching on as many aspects of American life and history as possible A History of the American People, 1934 **A History of the American People (Classic Reprint)** Francis Newton Thorpe, 2016-10-14 Excerpt from A History of the American People Since the American Revolution the terms America and American have acquired a specific significance They apply to the United States of America and its people but the use of the words in this sense has been more common in trade and travel than in literature There are half a dozen United States in the western world two in North and four in South America The words are rarely heard in association with Mexico or Brazil yet they form a part Of the Official name Of these republics Our own history as a nation shows a distinct line of cleavage in the use of the two words United States Is our Union to be understood as consisting of the united States or of the United States We all agree on the use Of the words of America About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The History of the American People Charles A. Beard, William C. Bagley, 1930 **A History of the American People** Paul Johnson, 1997 The History of the American People, 1911 **A Short History of the American People (Classic Reprint)** Edna Henry Lee Turpin, 2017-07-15 Excerpt from A Short History of the American People Miss turpin s Short History of the American People has impressed me as a work of exceptional value The narrative is clear impartial spirited and altogether readable The prime merit of the work is in my opinion that events are made so to unfold that even a child will grasp the principle of cause and effect as it has worked itself out in the history of our country This volume is not a series of detached dates and incidents however picturesque or pleasingly told The process of growth is brought out in every paragraph in such a way as to make the sequence of events illuminating By such treatment the reader is enabled to contract the historical habit As the habit of sound thinking is more than a thousand thoughts so the historical habit of interpreting cause and effect in human experience is of far more value than any knowledge of events however comprehensive The author has preserved the due perspective of American history by giving a large place to the facts bearing on the industrial and social development of our people in accordance with the changing sphere of the modern State which is becoming more and more social both in its spirit and aims The style is simple and yet energetic while the apparatus for teaching such as maps topics for study references for reading and suggestive questions are admirable About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an
