[The Ancient Mediterranean](#) Rebecca Steffoff, 2005 Text plus historical and contemporary maps provide a look at the history of cultures that flourished

along the Mediterranean Sea      *A Small Greek World* Irad Malkin, 2011-10-18 Greek civilization and identity crystallized not when Greeks were close together but when they came to be far apart It emerged during the Archaic period when Greeks founded coastal city states and trading stations in ever widening horizons from the Ukraine to Spain No center directed their diffusion mother cities were numerous and the new settlements colonies would often engender more settlements The Greek center was at sea it was formed through back ripple effects of cultural convergence following the physical divergence of independent settlements The shores of Greece are like hems stitched onto the lands of Barbarian peoples Cicero Overall and regardless of distance settlement practices became Greek in the making and Greek communities far more resembled each other than any of their particular neighbors like the Etruscans Iberians Scythians or Libyans The contrast between center and periphery hardly mattered all was peri around nor was a bi polar contrast with Barbarians of much significance Should we admire the Greeks for having created their civilization in spite of the enormous distances and discontinuous territories separating their independent communities Or did the salient aspects of their civilization form and crystallize because of its architecture as a de centralized network This book claims that the answer lies in network attributes shaping a Small Greek World where separation is measured by degrees of contact rather than by physical dimensions      The Open Sea J.
