## **The Anguish And The Ecstasy Of A Jewish Chaplain:**

*The Anguish and the Ecstasy of a Jewish Chaplain* Isaac Klein, 1974

**Conservative Judaism in America** Pamela S. Nadell, Marc Raphael, 1988-09-16 Pamela Nadell's biographical dictionary and sourcebook is a landmark contribution to American Jewish and religious history. For the first time a great American Jewish religious movement is portrayed with amplitude, authority, and personality. In the most revolutionary era in two millennia of Jewish history, this surely is an important volume. Moses Rischin, Professor of History, San Francisco State University. *Conservative Judaism in America: A Biographical Dictionary and Sourcebook* is the first extensive effort to document the lives and careers of the most important leaders in Conservatism's first century and to provide a brief history of the movement and its central institutions. It includes essays on the history of the movement and on the evolution of its major institutions: The Jewish Theological Seminary of America, The Rabbinical Assembly, and The United Synagogue of America. It also contains 135 biographical entries on the leading figures of Conservative Judaism, appendices, and a complete bibliography on sources of study.

**The Fighting Rabbis** Albert I. Slomovitz, 2001-03 *The Fighting Rabbis* details the compelling history of Jewish military chaplains from their first service during the Civil War to the first female Jewish chaplain and the rabbinic role in Korea, Vietnam, and Desert Storm. Rabbi Slomovitz himself, a Navy chaplain, opens a window onto the fieldwork, religious services, counseling, and dramatic battlefield experiences of Jewish military chaplains throughout our nation's history.

[Postwar Jewish Displacement and Rebirth](#)

Françoise S. Ouzan, Manfred Gerstenfeld, 2014-06-26 This volume offers insights into the major Jewish migration movements and rebuilding of European Jewish communities in the mid-twentieth century. Its chapters illustrate many facets of the Jews' often traumatic post-war experiences. People had to find their way when returning to their countries of origin or starting from scratch in a new land. Their experiences and hardships from country to country and from one community of migrants to another are analyzed here. The mass exodus of Jews from Arab and Muslim countries is also addressed to provide a necessary and broader insight into how those challenges were met as both migrations were a result of persecution as well as discrimination.

**A "Jewish Marshall Plan"** Laura Hobson Faure, 2022-02-01 While the role the United States played in France's liberation from Nazi Germany is widely celebrated, it is less well known that American Jewish individuals and organizations mobilized to reconstruct Jewish life in France after the Holocaust. In *A Jewish Marshall Plan*, Laura Hobson Faure explores how American Jews committed themselves and hundreds of millions of dollars to bring much-needed aid to their French coreligionists. Hobson Faure sheds light on American Jewish chaplains, members of the Armed Forces, and those involved with Jewish philanthropic organizations who sought out Jewish survivors and became deeply entangled with the communities they helped to rebuild. While well-intentioned, their actions did not always meet the needs and desires of the French Jews. *A Jewish Marshall Plan* examines the complex interactions, exchanges, and solidarities created between American and French Jews following the Holocaust. Challenging the assumption that French Jews were passive recipients of aid, this

work reveals their work as active partners who negotiated their own role in the reconstruction process

**A Nation Forged in War** Thomas A. Bruscino, 2013-05-12 World War II shaped the United States in profound ways and this new book the first in the Legacies of War series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance A Nation Forged in War is the first full length study of how large scale mobilization during the Second World War helped to dissolve longstanding differences among White soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the period from 1941 to 1945 Thomas Bruscino explores how these soldiers shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith s defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy s victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented A Nation Forged in War is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume

**In, Out and Beyond** Antonio Medina-Rivera, Lee Wilberschied, 2011-05-25 The essays presented in this volume are a peer reviewed selection of some of the best papers presented during the 3rd Crossing Over Symposium at Cleveland State University from October 9 11 2009 Scholars from the United States Canada Belgium France Spain Italy India Israel and the United Kingdom came together to examine border experiences from different points of view Originally the organizers called upon a diversity of borderland possibilities for this conference cultural political educational religious international intranational linguistic gender ideological age tribal social class caste identity and neighborhoods The definition of borderland was not limited to territorial spaces but rather was open to any kind of confrontation encounter affecting different situations of our lives The call for this conference was interdisciplinary in nature and its intent was to open a discussion between the humanities and the social sciences on the dynamic issue of borders
