The Anunnakis Children:

The Anunnaki's Children Josi De Faria E. Maya, 2002-01-01 In *Specks of Spirit* I said May be as if in a gigantic Cosmic Russian doll our UNIVERSE is just a molecule part of another ENTITY which itself is part of another as if in an endless reflection of mirrors The Portuguese Poet Fernando Pessoa 1888 1935 in one of his poems has a strange verse the meaning of which comes very close to this same odd thought DEUS O HOMEM DE OUTRO DEUS MAIOR Meaning GOD IS THE MAN FROM ANOTHER HIGHER GOD For those of you who are acquainted with my first book *Specks of Spirit* this is the natural sequence for it In *Specks of Spirit* I related my own inner search and intellectual evolution from my childhood until around the time of my retirement at 55 or a period of 40 years This one starts where the other stopped and goes until where I am right now at 65 covering my last 10 years of inner development Being retired I have had much more time to read and to think and being now able to reach the whole world by the Internet my information network and scope of intercommunication has grown a thousand fold Through it I heard of Authors like Zecharia Sitchin Steven M Greer Neil Freer Joseph P Firmage and many others who thanks to the efficient work of Amazon com very fast reached my hands The world has really become a small village where what one says in a corner of it is immediately heard and available to anyone anywhere In *Specks of Spirit* I tried to tear open our small horizons questioning the who why what for or the main interrogations a normal rational being poses to himself as soon as he has conscience of his I An effort was made trying to force us to accept that there are more things in Heaven and Earth that we can dream of as Shakespeare so well put in Hamlet Realizing that all is energy and vibration and as the living world keeps getting every time more organized by feeding on Nega Entropy the question was raised that may be there could be a limit where this value of Entropy would reach a so called God s Constant when people would reach enlightenment As it is well known Enlightenment is reached unexpectedly and in a way very similar to a quantum jump It seems that a certain level of concentration or introspection is needed to be able to reach such a state In what unit can we measure this needed level I feel that Nega Entropy is probably the unit and that there is a certain value for it in order for anyone to reach enlightenment In this new book I profit from the recent discoveries and translations of the Nineveh Tablets and particularly the interpretation given to them by Zecharia Sitchin in his several books There we discover that our so called gods were no more than Entities from other Planets who came here some for their own profit and others to teach us the right way and the life we should lead If this is true and everything leads us to have to accept that conclusion as much as it may be difficult for us to swallow as it is against all our main actual beliefs and preconceived ideas then another main question arises who were then the Anunnaki s Gods or God Who is and where is the real God of the Universe Why have we intentionally been given minor gods for our adoration The answer I feel lies in the fact that the real notion of God is a very difficult and abstract one and a particular difficult one to explain to the just emerged Homo Sapiens who didn t arrive at this stage by his own means but was genetically manipulated to reach faster such a stage In a certain way the idea of God is also

an evolutionary one We miss some hundred thousands year of natural evolution and we are where we are just because we have been given a very strong push When the Homo Sapiens started to have doubts and felt a need for the spiritual the natural solution he had was to consider those so much more advanced Entities as his gods and gods in the plu The Revised, Indexed and Complete Book of the Anunnaki-Ulema Final Warning to Humanity, the End of Time, and the Return of the Anunnaki In 2022 Germain Lumiere/ Maximillien de Lafayette,2010-04-23 The Revised Indexed and Complete Book of the Anunnaki Ulema Final Warning to Humanity the End of Time and the Return of the Anunnaki in 2022 The Grays creation of a hybrid human race and the final clash between extraterrestrials and Earth Detailed descriptions of 1 When and how the Anunnaki will return to Earth 2 Areas countries of their landing 3 What their agenda is 4 What they are going to do to the human race 5 Who is going to be saved and or killed 6 Their spaceships and stargates Ba abs over major cities 7 The 2022 major arrival of the Anunnaki to Earth and their clash with humans 8 Holographic pictures showing the entire sequence of the Roswell crash 9 Inside the Dulce Base 10 The Anunnaki s classification of Humanity into three groups regarding their level of contamination 11 United States Protocol on the Extraterrestrial visit to Earth in 2022 12 United States Government publications on extraterrestrial invasions *Children of the Anunnaki* J. conspiracy s Liza The alien continues As the worm replaces the DNA string which is your life recording with another you will slowly die and this body of yours will start to decompose As this extraterrestrial being was talking Liza felt her body stop reacting bit by bit and she seemed to sink together into a pile Her muscles had started to dissolve Why are you doing this She whispered without any strength left as she became sitting on the floor not able to move Soon all she had left were her eyesight She saw the clone turn from the aquarium and soon her vision became more and more blurred then black The alien brought forth a robe and she started to dry the clone s hair and a soft humming filled the bridge again as she said Welcome back Liza how was your sleep The clone smiled and answered Thank you J Tika it was to my satisfaction but did we sense the clone becoming a being with its own feelings She led them to the enormous window facing the universe here where a billion stars fill the void and galaxies were only as far away as our thoughts I believe so my dear I believe so J Tika answered She continued are you sure my dear that you want to visit earth yourself this time Liza smiled oh yes I have had a wonderful virtual experience here on this blue planet It is time to enter a new host soon too and what are our upcoming agenda J Tika swept her hand in the air and a cube big as a football without walls but filled with signs appeared She talked to the cube and it sent small electrical lights from her orders to the commando bridge and it began to change its whole structure Suddenly the entire ship looked like the main city on a busy planet This was not only a hologram This was advanced building techniques rearranging tiles in structure by commanding atoms to move J Tika interpreted what she saw as we have non humans non guardians with high intelligence growing by the number quickly and by the look of this their older cities may already be as old as 4000 years or more Shall we interact Liza held her hand up and shook it No not now We must find 3 first and the rest of that fleet Before Liza went back to earth she stared into a new glass tank where a baby human was growing When shall we leave dear J Tika asked Liza said nothing at first but then she looked around the hundreds of glass tanks in the first chamber let s ask the others when I come back we can not leave any clones behind on earth anyway and I kind of like this place It would be a shame killing every clone off The sunrise in Sunset Crater was magically beautiful Mist covered the fields and it tried desperately to climb the hills but as the sun rose the mist sank further down along the ground until the only thing that was left were very small drops of water in the grass and on the leaves On one of the logs by last night s campfire Felicity and Philip sat holding each other tight with a blanket still wrapped around them As the sun rose higher in the sky and hit their faces a vague figure came walking from the Cinder trees Felicity was the first one to see Liza and ran screaming of joy toward her My God where have you been Liza felt a hug for the first time in real life and she almost stumbled as she took her first breath with the taste of summer moist and sweet flowers Gazing towards the sun she got struck with love for this short life but intense existence experience Amazing she whispers knowing that all these people that came running toward her only are soul puppets hidden in bodies as Armour for war virtual pleasure or science When for a fact the true beings were kept safe in DNA tanks just to stay alive for millions of years never seeing each other s faces for real This is life
