chief designer for Minoru Yamasaki At that time both Saarinen and Yamasaki were developing their distinctive architectural signatures and building their international renown Subsequently Birkerts established his own practice evolving a design process and a philosophy with its own original profile His approach does not seek a right style for the job in the manner of Saarinen From the first Birkerts work was tied to a program as well as a particular context a place to the extent that it became expressive of the surrounding landscape and accommodating to the existing vernacular Birkerts designs from the Federal Reserve Bank in Minneapolis to the Corning Museum of Glass to the Houston Arts Museum and recently the Latvian National Library shows him exploring with ever greater resource and inventiveness the expressive possibilities of symbol and metaphor Form he believes expresses function and does so with its own rich meaningful vocabulary Birkerts uses visual metaphors to link program client and landscape in a resonant solution His methodology of using metaphor meaning as a first principle as a generator of design concept is unusual in the profession but it is vitally connected to his Latvian heritage and his family background as the son of a folklorist and writer This heritage is given a new turn here for the biographical text of the book has been written by his son Sven Birkerts who is a noted literary critic and author of the influential book *The Gutenberg Elegies The Fate of Reading in an Electronic Age* He has also written a memoir *My Sky Blue Trades* which describes at some length his coming of age struggles with his architect father Now years later Sven brings his cultural perspectives as well as his family insights to bear offering a unique portrait of a life and career History and description are enlivened throughout by observations and reflections on the career the destiny of this master of the expressive concept The book is richly illustrated and complemented by descriptive assessments of the projects by Martin Schwartz who is an architect and writer and who teaches at Lawrence Technical University in Southfield Michigan *Gunnar Birkerts* Gunnar Birkerts,1983 **Gunnar Birkerts** Jānis Dripe,2015 The building of the National Library of Latvia is a landmark of the capital city of Riga a spatial symbol and architectural icon created by one of the 20th century renowned modernists the Latvian born American architect Gunnar Birkerts It is one of the largest cultural buildings in Northern Europe in the 21st century and acquired a symbolic and meaningful name The Castle of Light The pyramidal structure which rises 68 meters high is a place of cognition equipped with state of the art technology where up to 8 million units of national printed materials can be stored **Gunnar Birkerts, First Recipient of the Plym Distinguished Professorship in Architecture, University of Illinois at Urbana-Champaign** James P.
