*Economic Perspectives on Craft Beer* Christian Garavaglia, Johan Swinnen, 2017-12-19 This book investigates the birth and evolution of craft breweries around the world. Microbrewery, brewpub, artisanal brewery, henceforth craft brewery, are terms referred to a new kind of production in the brewing industry, contraposed to the mass production of beer which has started and diffused in almost all industrialized countries in the last decades. This project provides an explanation of the entrepreneurial dynamics behind these new firms from an economic perspective. The product standardization of large producers, the emergence of a new more sophisticated demand and set of consumers, the effect of contagion and technology aspects are analyzed as the main determinants behind this revolution. The worldwide perspective makes the project distinctive, presenting cases from many relevant countries including the USA, Australia, Japan, China, UK, Belgium, Italy, and many other EU countries.      **The Audacity of Hops** Tom Acitelli, 2017-06-01 Charting the birth and growth of craft beer across the United States, Tom Acitelli offers an epic story driven account of one of the most inspiring and surprising American grassroots movements.
