Vermeer and the Invention of Seeing Bryan Jay Wolf, 2001-12 The result is a Vermeer we have not seen before a painter whose serene spaces and calm subjects incorporate within themselves however obliquely the world's troubles Vermeer abandons what his predecessors had labored so carefully to achieve legible spaces a world of moral clarity defined by the pressure of a hand against a table or the scatter of light across a bare wall Instead Vermeer complicated Dutch domestic art and invented what has puzzled and captivated his admirers ever since the odd daubs of white pigment dancing across the plane of the canvas patches of blurred surface contradicting the painting's illusionism without explanation and the querulous silence that endows his women with secrets they dare not reveal

Baroque Bodies Mitchell Greenberg, 2001 Mitchell Greenberg explores the significance of fantasies of the body in seventeenth century France through provocative and subtle readings of some of the most intriguing texts of the period Beginning with an eloquent invocation of the status of the king in classical France Greenberg surveys the complex sociopolitical history of Louis XIV's reign analyzing both Moliere and the entire corpus of Racine The central chapters of *Baroque Bodies* deal with such fascinating texts as the Memoires of the abbe de Choisy the first existing account of a male cross dresser two founding texts of the modern pornographic genre *L'ecole des filles* and *L'academie des dames* and the autobiography of Marie de l'Incarnation the famous mystic and founder of the first Ursuline convent in Canada In addition to his richly nuanced readings Greenberg integrates into his argument material from a broad array of disciplines including psychoanalysis feminism epistemology and history He also points out the implications of his argument for the political theological and historical thought of the period moving effortlessly from witch trials in France to discussions of bodies in Renaissance English literary criticism to the works of Bakhtin Foucault Freud and Lacan

Reflections on Beckett Anna McMullan, S. E. Wilmer, 2026-02-16 The essays in this collection were originally delivered as part of the esteemed lecture series at Trinity College Dublin Samuel Beckett's alma mater The eminent contributors shed new light on Beckett's enigmatic theater taking up an engaging array of topics Included are new perspectives on Beckett's use of language and silence on his attitudes toward the body on those who influenced him and on those he has influenced including Suzan Lori Parks and Femi Osofisan and on Beckett and the art of self collaboration Each contributor places the playwright into a network of genealogies and legacies and his work into important historical cultural and aesthetic contexts Together the essays demonstrate Beckett's impact on theater performance and visual arts during the latter half of the twentieth century and serve to open up new directions for Beckett studies well into the twenty first This is an indispensable volume for anyone interested in Beckett whether scholar student or
