Trends In Modern Journalism:

Trends in Modern Journalism Arvind Kumar, 2002 In Indian context Studies in Contemporary Journalism and Communication in Russia's Provinces Greg Simons, Anna Sums kaya, 2022-04-19 This book examines the contemporary communicational practices of journalists and media outlets and the consumption and reception patterns of audiences in Russia's provinces with an emphasis on the intergenerational transmission of culture and memory Investigating the interaction and issues of contemporary identity culture audiences and journalism in a rapidly changing and evolving Russia this volume goes beyond the large metropolitan centres into the provincial regions of Russia to develop a more comprehensive overview Despite a popular image that is often projected of Russia as a homogeneous often threatening entity its regions are very far from being uniform with diverse varied geographies ethnicities religions cultures resources and economic infrastructure The perspectives offered by a range of scholars and practitioners explore the generational political and regional diversities that exist across this vast country and analyse local and regional media Covering topics not often discussed this volume offers an important contribution for everyone interested in Russian politics culture journalism and history and the study of local and regional communication studies **Media Law in the time of liquid modernity** Jacek Sobczak, Jędrzej Skrzypczak, Ksenia Kakareko, 2017 Political and social changes that took place at the turn of the 20th and 21st centuries and additionally technological revolution and the process of digitalisation have resulted in significant social economic and legal transformations Then it can be even said metaphorically that together with the development of the Internet we discovered a new continent Colonization of this area resembles conquering new areas in times of great geographical discoveries At first power and violence were prevailing and only later people tried to introduce effective methods of law enforcement Nowadays the next problem is the non territoriality of phenomena on the Internet From the point of view of legal actions it is generally limited to a legal system of a given country and seems to be a fundamental issue As it appears law and legal systems do not handle the challenges of global space and it is rather a gunslinger's speed that turns out to be essential here However it should be hoped that with time as in the case of the real world experience power will be replaced with powerful arguments based on effective legal mechanisms in particular All the more so as these changes happen very rapidly Thus referring to the known concept of liquid modernity by Zygmunt Bauman it can also be said that by regulating the media subject in the field of law to fundamental changes we are confronted with the uncertainty of legal institutions concerning this part of social life Hence we should return to the basics and again pose fundamental questions about media law such as for instance what should the press radio television be called and who can be treated as a journalist Additionally we should face new legal phenomena and challenges The collective work we are passing to the readers is an attempt to analyse the current state and present a forecast about further changes as well as answers to at least several questions posed above Being aware of the fact that it is impossible to deal with or even settle all the aforementioned

problems in such a study the editors hope that thanks to reviews and deliberations of the authors the book will significantly contribute to the discussion on media law in the 21st century The authors of individual chapters of this book are researchers from various Polish scientific institutions and members of the Polish PressLawAssociation *India's Media and Modern Journalism* Rajeer Bhatnagar,2001
