Climate Change and Carbon Markets: Late or Too Late? John Ure, 2026-01-01 This book offers an accessible introduction to climate change science and a comprehensive description and assessment of market and financial tools to combat the effects of climate change The opening three chapters focus upon science Chapter One is devoted to understanding the basics of climatology and the scenarios forecast by scientists contributing to the UN's Framework Convention on Climate Change UNFCCC Chapter Two focuses upon the alternative pathways to meeting the Paris Agreement goals as discerned by the over 700 scientists contributing to the Intergovernmental Panel on Climate Change IPCC Chapter 3 is a highly critical analysis of how different schools of economists have used a damage function to estimate the long term costs of climate change and more recent attempts to recognise the value of nature as an environmental benefit for future generations Chapters 4-6 examine policies to combat climate change Chapter 4 looks in some depth at public policies adopted by leading economies covering China the EU India Singapore the UK and the USA The role of a carbon tax and alternatives are examined Chapter 5 is devoted to a history and analysis of the voluntary carbon market VCM sector and the role of carbon credits It not only highlights the weaknesses but examines the possibility that public sector regulation could be used to increase the credibility of voluntary carbon market transactions The chapter also examines the available technologies for carbon dioxide removal

Chapter 6 is devoted to green finance and provides a critical review of the UN model that relies upon public capital catalysing private investment in green projects a model that is failing the Global South where the majority of Green House Gases GHG actually arise Globally there is an annual green finance gap of over USD1 trillion Chapter 7 concludes with an assessment of where present policies fall short notwithstanding the withdrawal of the USA for the Paris Agreement and in particular places emphasis on the need to combat GHG emissions where they most frequently occur in the Global South The author calls for the creation of an International Green Bank issuing green bonds supported by the world s leading economies with China and India playing leading roles and with an exclusive focus on emerging market and developing economies EMDEs before it is too late [Recycling Projects](#) Elmer Chambers,2018-04-16 [Recycling Projects Top 20 Interesting Upcycling Ideas To Refresh for Your Home](#) DIY Upcycling is the upcycling book you have been waiting for Providing you with 20 unique and inspiring ideas you won t have to stop with what projects are listed here After you do only one or two of these fun and easy projects you will never want to have to buy anything new at the store again This book is the key to showing you how you can take every day ordinary items that are no longer useful themselves and turn them into something you can use over and over again There will be no end to the things you can do with the stuff you find laying around your house Whether you are a seasoned upcycler a newbie or someone who is just looking for a project this book will help All of these projects are Easy Fun Creative Unique Inexpensive It doesn t matter if you are young or old have money to spend or are trying to save money this book is your guide to fun creative projects to brighten your home Download your E book [Recycling Projects Top 20 Interesting Upcycling Ideas To Refresh for Your Home](#) by scrolling up and clicking Buy Now with 1 Click button
