

LEARNING TASK 7

Am I a Climate Hero or a Climate Culprit?

Procedure:

1. Compute your carbon footprint by using Table 4 WWF-Philippines' Carbon Footprint Checklist. Choose one (1) member of the family or a friend do the checklist also for you to have a comparison.

What's your carbon footprint? Evaluate your carbon emission.

Different Activities	Always (1pt)	Sometimes (3pts)	Never (5pts)
1. I use water wisely			
2. I eat a mixture of meat and vegetarian meals			
3. We use kerosene lamps or low energy light bulbs at home			
4. I use basin in washing our dishes			
5. I eat locally grown food			
6. I turn off electric appliances or battery-operated gadgets instead of leaving them on standby			
7. I use a glass of water when brushing my teeth			
8. I eat organic food			
9. I use reusable bags when buying things from the market			
10. I avoid eating ready meals (e.g. noodles, sardines etc.)			

Checklist Carbon Footprint

**Tom McCarty, Michael Jordan, Daniel
Probst**

Checklist Carbon Footprint:

Visualizing Climate Change Stephen R.J. Sheppard, 2012-03-29 Carbon dioxide and global climate change are largely invisible and the prevailing imagery of climate change is often remote such as ice floes melting or abstract and scientific charts and global temperature maps Using dramatic visual imagery such as 3D and 4D visualizations of future landscapes community mapping and iconic photographs this book demonstrates new ways to make carbon and climate change visible where we care the most in our own backyards and local communities Extensive color imagery explains how climate change works where we live and reveals how we often conceal misinterpret or overlook the evidence of climate change impacts and our carbon usage that causes them This guide to using visual media in communicating climate change vividly brings to life both the science and the practical solutions for climate change such as local renewable energy and flood protection It introduces powerful new visual tools from outdoor signs to video games for communities action groups planners and other experts to use in engaging the public building awareness and accelerating action on the world's greatest crisis **Build**

Like It's the End of the World Sandeep Ahuja, Patrick Chopson, 2024-09-18 Authoritative roadmap to the design and construction of a carbon positive built environment Build Like It's the End of the World stands as a compelling manifesto for the AEC industry confronting the urgent challenges of climate change with actionable solutions Authored by Sandeep Ahuja and Patrick Chopson this text embarks on a journey to redefine the future of our built environment Through a lens of decarbonization it challenges established norms and introduces a new benchmark for sustainable design and construction This book not only advocates for a radical shift in design and construction philosophy but also provides a concrete blueprint for achieving carbon positivity in our projects and practices The authors bring their extensive experience and research to the forefront offering a guide that marries rigorous analytical methods with practical applications It is a call to action urging professionals and students alike to embrace innovative technologies and strategies that can lead to significant changes in how we conceive and construct our spaces Within its pages readers will find A comprehensive strategy for carbon positive design a detailed blueprint showcases step by step how sustainable practices can be integrated into projects drawing on the authors vast experience and thorough research Engaging tools for practical implementation bridging the gap between high level sustainability goals and their execution providing readers with learning objectives instructional activities and compelling case studies Insights on embedding sustainable practices it offers valuable perspectives on incorporating carbon positive principles into existing workflows highlighting the simplicity and profound impact of these efforts The economic and cultural case for sustainable buildings demonstrating the viability and necessity of carbon positive buildings emphasizing the importance of a cultural shift towards decarbonization in the construction industry Build Like It's the End of the World is an essential read for anyone in the AEC field looking to navigate the complexities of decarbonization of buildings It serves as a powerful testament to the role of technology and strategic innovation in transforming the industry guiding us towards a

future where our buildings play a pivotal role in the health of our planet **LePALISSHE 2021** Joko Nurkamto, Kalu Osiri, Abd. Qadir Muslim, Marzuki Alie, Iuliaa Feofilova, 2022-01-04 This book contains the proceedings of the First Lekantara Annual Conference on Public Administration Literature Social Sciences Humanities and Education LePALISSHE was held by Lentera Akademika Nusantara Lekantara Indonesia in collaboration with Universitas Trisakti Indonesia on August 3 2021 The aim of the conference is to promote new insights and discussion about the current global perspectives considering the differences in academic and subject fields approaches across time and countries with its implications and to improve and share the scientific knowledge on public administration literature social sciences humanities and education The theme of the conference is Responding to Current Changes and Future Prospects Post Covid19 Pandemic from Various Perspectives The Covid19 pandemic has brought social and economic disruption worldwide but is also providing opportunities in terms of new paths new perspectives and new ways of seeing things while addressing the underlying challenges The conference invites delegates across Indonesia United Kingdom Japan Malaysia Australia Canada USA and beyond and is attended by more than 300 participants from scholars academics researchers practitioners students and policymakers from national and international institutions to provide an opportunity for discussion and to enhance professional networking in various related to the theme of the conference Sustainability Appraisal Barry Dalal-Clayton, Barry Sadler, 2014-03-26 Sustainability Appraisal is a sourcebook of the state of the art of this rapidly emerging and diversifying area It draws on a wealth of international experiences and approaches to illustrate the status and scope of Sustainability Appraisal Assessment SA This comprehensive guide highlights how SA can be used to analyse and integrate the key environmental social and economic pillars of sustainability into decision making at all levels from policy to project to investment by government business and industry or international organizations Distilling both published and unpublished materials and with contributions from a range of leading experts organizations and agencies this book will be of significant value to professionals everywhere who are in need of a solid reference guide to what constitutes SA practice and more importantly how and when it can be applied
