Eco Friendly Products Framework:

Green and Blue Economy Frameworks for Halal Industry Sustainability Monsuru Adekunle Salisu, Lukman Raimi, Nurudeen Babatunde Bamiro, Isa Olalekan Elegbede, 2025-05-06 This book serves as a valuable resource for economic policymakers economic analysts halal trainers halal stakeholders agribusiness advocates and halal industry consultants in the rapidly changing emerging green and blue economy The book explores the themes of green and blue economies for halal industry sustainability and business entrepreneurship as well as production and consumption ethics and impact investments in halal green and blue entrepreneurship and principles governing the innovation of production framework through integration of green and blue economy The green and blue economy frameworks can be applied to the Halal industry to enhance its sustainability and promote environmental and social responsibility This book presents the emerging blue and green economy to halal entrepreneurs as a complementary alternative model for enterprise development wealth creation employment creation responsible production and sustainable consumption and a catalyst for attaining sustainable development goals

ESG Frameworks for Sustainable Business Practices Ajithakumari Vijayappan Nair, Biju, Muschert, Glenn, Jayachandran, Ambili, 2024-08-14 As businesses worldwide strive to embrace sustainability in their operations they often need help with a significant challenge the inadequacy of traditional Corporate Social Responsibility CSR practices in meeting modern sustainability needs Despite increasing regulatory pressure and societal expectations many organizations need help implementing effective Environmental Social and Governance ESG strategies aligning with their core business goals This gap between intent and implementation highlights the urgent need for a comprehensive and practical guide to navigating the complexities of sustainable business practices ESG Frameworks for Sustainable Business Practices solve this pressing challenge by offering a systematic and insightful analysis of global ESG frameworks Synthesizing current research and industry best practices provides a clear roadmap for organizations looking to integrate sustainability into their core strategies Through an in depth exploration of topics such as ESG disclosure sustainable investments and the role of regulations in ESG practices this book equips readers with the knowledge and tools needed to drive meaningful change within their organizations

Effect of Eco-Friendly Products on Consumer Purchase Intention Yusuf Balarabe Abdullahi, 2021-12-28 Seminar paper from the year 2021 in the subject Communications Public Relations Advertising Marketing Social Media grade 3 8 Limkokwing University of Creative Technology language English abstract This study investigates the customers intention to pay the premium for green product rather than their purchase intention crosswise over various product classes It attempts to predict the factors that drive green purchase decisions and purchase intention Organized surveys are utilized for data accumulation and ordinary least square regression analysis of variance have been utilized for analysis of information Results recommend the strength of customers discernment about the functional parts of green products on their purchase intention Extraordinary economic development activated by innovation revolution

globalization has prompted market driven development in consumption pattern in the rising economies Change in consumption pattern has prompted overconsumption or unsustainable consumption and over abuse of assets In the present period the worry over environmental downturn decrease of environmental effect and practical development has turned into the topic of interest among the researchers academicians specialists and even industries Consumer research perceives that their observations for a product approach understanding about the product and its producer and different contextual factors assume a prevailing part in their decision making process Purchase intention which signifies the most extreme value that a consumer will pay for a specific or a heap of products play a conclusive influence on their decision behaviour Accordingly in the crossroads of environmental decay implementation of friendly environmental practices inclusive of green product consumption relies upon their tendency to pay the green value premium The present study endeavours to dissect the factors predicting consumers intention to pay the green value premium for products with green certification The environmentally feasible or environmental good or green products involves a rundown of potential advantages to the environment as they are made of environmental accommodating assets have asset preservation potential can be reused and have the least environmental effect at all phases of its lifecycle In section two a concise depiction of the constructs has been given trailed by research methodology in the third segment The analysis of information with the findings of the study and conclusion are exhibited in the fourth and fifth section The last segment gives the managerial ramifications of the study

Global Product Development Alain Bernard,2011-05-05 This book of proceedings is the synthesis of all the papers including keynotes presented during the 20th CIRP Design conference The book is structured with respect to several topics in fact the main topics that serve at structuring the program For each of them high quality papers are provided The main topic of the conference was Global Product Development This includes technical organizational informational theoretical environmental performance evaluation knowledge management and collaborative aspects Special sessions were related to innovation in particular extraction of knowledge from patents

Advances in Visual Informatics Halimah Badioze Zaman,Alan F. Smeaton,Timothy K. Shih,Sergio Velastin,Tada Terutoshi,Nazlena Mohamad Ali,Mohammad Nazir Ahmad,2019-11-12 This book constitutes the refereed proceedings of the 6th International Conference on Advances in Visual Informatics IVIC 2019 held in Bangi Malaysia in November 2019 The 65 papers presented were carefully reviewed and selected from 130 submissions The papers are organized into the following topics Visualization and Digital Innovation for Society 5 0 Engineering and Digital Innovation for Society 5 0 Cyber Security and Digital Innovation for Society 5 0 and Social Informatics and Application for Society 5 0

Digital Technologies for Sustainable Manufacturing Arturo Molina,Alex Elías Zúñiga,Dora Iliana Medina,Fernando Gómez Zaldívar,Juana Isabel Méndez,Pedro Ponce,Rita Q. Fuentes-Aguilar,Alejandro Montesinos-Castellanos,2025-10-28 Digital Technologies for Sustainable Manufacturing provides a practical framework for promoting sustainability in manufacturing by combining Life Cycle Engineering with the 5S

principles Social Sustainable Sensing Smart and Safe This book introduces ten core digital technologies including AI simulation tools IoT digital twins additive manufacturing CAD tools blockchain cloud computing AR VR and robotics and automation as vital drivers for fostering innovation and resilience across materials products processes manufacturing systems and supply chains Each chapter blends theory with real world case studies and shows how competitive intelligence helps stakeholders anticipate trends and make strategic decisions This comprehensive book prepares engineers scientists and leaders to create a more sustainable efficient and future ready manufacturing ecosystem **OECD Public Governance Reviews Implementing the OECD Principles for Integrity in Public Procurement Progress since 2008**

OECD,2013-11-21 This assessment of progress made in integrity in public procurement in OECD countries shows that as a result of austerity measures governments have been providing smarter and more environmentally friendly procurement

Green Supply Chain Management: Product Life Cycle Approach Hsiao-Fan Wang,Surendra M. Gupta,2011-08-05 A COMPLETE GUIDE TO IMPLEMENTING A GREEN SUPPLY CHAIN This detailed resource provides a stage by stage production methodology within the life cycle of a product to ensure environmental compliance and economic goals After covering basic concepts and background Green Supply Chain Management Product Life Cycle Approach discusses green engineering technologies green value chain management and green information management systems The book delivers the knowledge to quantify the environmental impact on supply chains and identify opportunities for making improvements leading to both green engineering and green management of a product COVERAGE INCLUDES Mathematical background Green engineering Green materials Environmental design Green procurement vendor selection with risk analysis Green production manufacture and remanufacture in certain and uncertain environments Green logistics recycling with certain and uncertain situations Green customers features and identification End of life management disassembly and reuse Database for life cycle assessment procedure with database Web based information support systems **Information Technology for Manufacturing Systems** Qi Luo,2010-01-12 Selected peer reviewed papers from the 2010 International Conference on Information Technology for Manufacturing Systems ITMS 2010 Macao China Jan 30 31 2010 Web-based Green Products Life Cycle Management Systems Hsiao-Fan Wang,2009-01-01 Despite being a relatively new field of research and development green management has drawn much attention from researchers and practitioners Facing critical impacts to its environment a strategic change to integrate supply chain management on green products needs a solid base for decision making Web Based Green Products Life Cycle Management Systems Reverse Supply Chain Utilization provides a comprehensive review of current and potential research in green management and control A unique collection in the growing field of green products this book is a must have for new and experienced researchers as well as practitioners and academicians alike **Hospitality and Tourism 2015** Salamiah A. Jamal,Salleh Mohd Radzi,Norzuwana Sumarjan,C.T. Chik,Mohd Faez Saiful Bakhtiar,2015-10-29 Innovation and Best Practices in Hospitality and Tourism Research contains 71

accepted papers from the Hospitality and Tourism Conference HTC 2015 Melaka Malaysia 2 3 November 2015 The book presents the up and coming paradigms and innovative practices within the hospitality and tourism industries and covers the following topics

Mana *Principles of Green Design* Nicole Elise Esposito, 2013 A problem exists that many eco friendly products on the market today are not widely accepted by consumers Three pilot experiments were conducted to examine a few causes of poor eco friendly product acceptance The first two experiments involved the testing of alternative products to disposable plastic water bottles Two hypotheses were developed the attitude hypothesis and the user activity hypothesis The attitude hypothesis states that a person with a positive environmental attitude will lead to better eco friendly product recommendation and rating greater product uses and a greater chance of continued use The user activity hypothesis states that a product with difficult set up or cleaning will lead to a worse product recommendation and rating fewer product uses and a smaller chance of continued use Participants took home a product to test for one week and then returned to complete two surveys a demographics survey and a product evaluation survey These surveys measured variables such as environmental attitude product recommendation and rating number of uses continued use and many others The results of the experiments show a relation between environmental attitude and the participants future usage with the eco friendly product In addition the data shows that difficulty of product set up and cleaning relate to the users opinion of the product Since this methodology of testing has not been documented before the lessons learned from these pilot experiments will help to develop a framework for product testing with human subjects The third pilot experiment tests the design method of defaults which may be a powerful tool when designing eco friendly products The theory behind the default option is that people typically choose the default setting on a product regardless if it is the best option This theory was tested with the use of automatic paper towel dispensers The lengths of the paper towels that the machines dispensed were changed periodically and the paper towel usage was measured The results from this experiment indicate that users obey the rule of defaults unless their needs are not being met at an extreme level The electronic version of this dissertation is accessible from <http://hdl.handle.net/1969/1/148165>

Sustainable Public Procurement Anastasia O'Rourke, 2013 With governments responsible for significant portions of national spending the promise of including sustainability considerations into that spending can enable policy makers to lead by example with sustainable public procurement SPP The report examines the state of sustainable public procurement policies and practices being undertaken by national governments worldwide in the last five years The research included a comprehensive literature and desktop review 19 interviews six country case studies and a survey of 273 SPP experts worldwide The objective was to create a baseline analysis that examines the evolving field of SPP and the drivers barriers needs and opportunities in SPP

Design and Assessment of Sustainable Products Magdalena Wojnarowska, Carlo Ingraio, 2024-12-30 This book questions the current definition of what makes a product sustainable and argues that a holistic approach to sustainable product design is required one that considers all aspects of a product's life cycle from design to

production to use and then final disposal This edited collection introduces a new set of methods and tools aligned with the concept of comprehensive sustainable produce design that integrates the environmental and social benefits of a product in line with the principles of a circular economy It provides a comprehensive understanding of the theoretical and practical framework that underpins a sustainable product highlighting the multiple key roles of eco design innovation quality and sustainability The authors describe the criteria for which products can be defined as being sustainable and outline how different manufacturing technologies influence the value of those products and the place they can find on the market accordingly The book s significant contribution lies in identifying the critical factors that are needed to successfully implement the framework throughout the entire life cycle of the product in a holistic integrated approach This book will be of interest for researchers and students studying sustainable product design environmental studies engineering and sustainable business management It will also be a useful resource for representatives of the business community managers technicians decision makers and consumers interested in sustainable product design issues

Advanced Design and Manufacture V Dai Zhong Su, Shi Fan Zhu, 2013-09-18 Volume is indexed by Thomson Reuters BCI WoS The book is a prestigious collection of refereed papers in advanced design manufacture and related subject areas The 161 papers are grouped as follows I Sustainable Development and Technologies II Product Industrial Design and Design Methodologies III Engineering Design IV Production Manufacture and Engineering Materials V CAD CAM CAE VI Gearing Mechanical Transmission and Mechanisms VII Machine Condition Monitoring VIII Finite Boundary Element Methods IX Optimisation Simulation and Computing Technologies X Manufacturing Informatics XI Robots and Control XII Engineering Management and Enterprise
