The 5x questions checklist for an effective hybrid workplace model

01 *What do people want?*

As mentioned above, a successful hybrid work strategy and hybrid workplace model can only work if it is designed for the people.

Before making any significant decisions or investments, it is important to understand the preferences, needs, and expectations of the employees, IT staff, and the employees who would work both in and out.

The way to build a hybrid work model is to first ask what things will be for everyone, and address the most common challenges first in your team.

Have you thought about how you could deliver a personalized employee experience? How will you support the employees' time when they want the experience to last?

As decisions can be made by different teams, the more people you have that share it,
