Counseling Adults in Transition Nancy K. Schlossberg,2005-11

Production Dynamics for Life Quality in the Incipient 21st Century Chau-kiu Cheung,2022-08-18 This book addresses the life quality of the average adult in the world based on international data weighted according to national population size It rests on the theoretical framework of analytic functionalism to explain statics and dynamics in the production of life quality The statics means the influences of personal and national factors on life quality whereas the dynamics mean the changes in the influences over time This approach elucidates life quality at the personal level rather than at the national level which overlooks what happens to the average person living in the world The approach involves a broad view of the production of life quality including experiences practices and appraisals of life This production also involves personal background characteristics and the national indicators of modernization globalization and environmental issues Knowledge about the production is helpful for policymakers researchers students and other people to upgrade life quality Such knowledge is valuable because it is up to date generalizable and sensible based on the analytic functionalist theoretical framework and statistical estimation
