the first edition more than 10 years ago many new information material about tropical diseases have been collected New  
technologies were established e g hybridization techniques flow cytometry image analysis telepathology serologic analysis  
etc The continuous and rapid improvement of tourism in all countries of the world and the increasing emigration of peoples  
of the developing countries to the old continents have changed the classical image of tropical diseases which are seen with  
greater frequency in temperative and highly developed countries For these reasons new concepts were necessary for the  
second edition of the pathology of tropical diseases The 27 chapters are written by well reputed experts in these fields
