## **The Anatomy Of Capitalist Societies:**

**The Anatomy of Capitalist Societies** John Urry, 1981 Mostly discussed in terms of contributions from Marxist writing and debate Organizing the 1% William K. Carroll, J.P. Sapinski, 2018-12-06T00:00:00Z Canada is ruled by an organized minority of the 1% a class of corporate owners managers and bankers who amass wealth by controlling the large corporations at the core of the economy But corporate power also reaches into civil society and politics in many ways that greatly constrain democracy In Organizing the 1% William K Carroll and J P Sapinski provide a unique evidence based perspective on corporate power in Canada and illustrate the various ways it directs and shapes economic political and cultural life A highly accessible introduction to Marxist political economy Carroll and Sapinski delve into the capitalist economic system at the root of corporate wealth and power and analyze the ways the capitalist class dominates over contemporary Canadian society The authors illustrate how corporate power perpetuates inequality and injustice They follow the development of corporate power through Canadian history from its roots in settler colonialism and the dispossession of Indigenous peoples from their land to the concentration of capital into giant corporations in the late nineteenth century More recently capitalist globalization and the consolidation of a market driven neoliberal regime have dramatically enhanced corporate power while exacerbating social and economic inequalities The result is our current oligarchic order where power is concentrated in a few corporations that are controlled by the super wealthy and organized into a cohesive corporate elite Finally Carroll and Sapinski offer possibilities for placing corporate power where it actually belongs in the dustbin of history

**The Class Structure of Capitalist Societies** Will Atkinson, 2020 The Dialectic of Capital (2 Vols.) Thomas Sekine, 2020-07-13 This is the first book written in English that tries to expose the thing in itself or inner logic of capitalism in a form homomorphic to Hegel's Logic following the method previously established in Japan by K z Uno 1987 1977 Neither bourgeois liberal nor even conventionally Marxist economics possess a logical hence objective knowledge of capitalism as such which is regrettable The manuscript of this book was completed in typescript at York University Canada in 1983 then privately published in that form by the author in about 500 copies which are by now virtually dispersed In order however to re launch economics as objective knowledge when the world must prepare itself to correctly terminate capitalism we need to rediscover a book of this kind as a dependable guide

avoid the torments of the capitalist system and tracing the victories and failures of the 100 year trajectory of socialism The significance of Marx and Engels socialist theories for contemporary social development in the Eastern societies is henceforth laid bare The book will be a key reference for readers studying Marxism Marxist philosophy and the history of philosophy

**The Philosophy of Capital** Haifeng YANG,2023-11-30 This book attempts to reveal Karl Marx's philosophical critique of the social being in capitalist societies from the text of Capital Marxists' different understandings of Capital in different historical periods reveal the rich meaning of Capital which plays an important role in promoting Marxian philosophy These different modes of interpretation also mean that the understanding of Capital is endless because re-reading of Capital will always open up a new realm for the interpretation of Marxian philosophy Since the financial crisis in 2008 Capital has

once again become a hot topic in academic fields However in these new interpretations there is no fundamental breakthrough in the illustration of Marx s thought because some either stick to the discussions in pure economic fields some the revision of Marx s manuscripts from the perspective of literature compilation others the role of Engels edition The popularity of Capital mainly stays in a certain emotion and in the internal requirements of critical reflection on capitalist society

**The Theoretical System of Karl Marx in the Light of Recent Criticism** Louis Boudianoff Boudin,1907
