**The Art of Literature (illustrated)** Arthur Schopenhauer, 2021-02 The contents of this as of the other volumes in the series have been drawn from Schopenhauer's Parerga and amongst the various subjects dealt with in that famous collection of essays Literature holds an important place Nor can Schopenhauer's opinions fail to be of special value when he treats of literary form and method For quite apart from his philosophical pretensions he claims recognition as a great writer he is indeed one of the best of the few really excellent prose writers of whom Germany can boast While he is thus particularly qualified to speak of Literature as an Art he has also something to say upon those influences which outside of his own merits contribute so much to an author's success and are so often undervalued when he obtains immediate popularity Schopenhauer's own sore experiences in the matter of reputation lend an interest to his remarks upon that subject although it is too much to ask of human nature that he should approach it in any dispassionate spirit

**The Art of Literature** Arthur Schopenhauer, 2015-07-02 Excerpt from The Art of Literature A Series of Essays And whatever may be thought of some of his opinions on matters of detail on anonymity for instance or on the question whether good work is never done for money there can be no doubt that his general view of literature and the conditions under which it flourishes is perfectly sound It might be thought perhaps that remarks which were meant to apply to the German language would have but little bearing upon one so different from it as English This would be a just objection if Schopenhauer treated literature in a petty spirit and confined himself to pedantic inquiries into matters of grammar and etymology or mere niceties of phrase But this is not so He deals with his subject broadly and takes large and general views nor can anyone who knows anything of the philosopher suppose

this to mean that he is vague and feeble It is true that now and again in the course of these essays he makes remarks which are obviously meant to apply to the failings of certain writers of his own age and country but in such a case I have generally given his sentences a turn which while keeping them faithful to the spirit of the original secures for them a less restricted range and makes Schopenhauer a critic of similar faults in whatever age or country they may appear About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Essays in the Art of Writing** Robert Louis Stevenson,2019-08-08 There is nothing more disenchanting to man than to be shown the springs and mechanism of any art The art of literature stands apart from among its sisters because the material in which the literary artist works is the dialect of life hence on the one hand a strange freshness and immediacy of address to the public mind which is ready prepared to understand it but hence on the other a singular limitation The sister arts enjoy the use of a plastic and ductile material like the modeller s clay literature alone is condemned to work in mosaic with finite and quite rigid words You have seen these blocks dear to the nursery this one a pillar that a pediment a third a window or a vase It is with blocks of just such arbitrary size and figure that the literary architect is condemned to design the palace of his art Nor is this all for since these blocks or words are the acknowledged currency of our daily affairs there are here possible none of those suppressions by which other arts obtain relief continuity and vigour no hieroglyphic touch no smoothed impasto no inscrutable shadow as in painting no blank wall as in architecture but every word phrase sentence and paragraph must move in a logical progression and convey a definite conventional import The first merit which attracts in the pages of a good writer or the talk of a brilliant conversationalist is the apt choice and contrast of the words employed It is indeed a strange art to take these blocks rudely conceived for the purpose of the market

or the bar and by tact of application touch them to the finest meanings and distinctions restore to them their primal energy wittily shift them to another issue or make of them a drum to rouse the passions But though this form of merit is without doubt the most sensible and seizing it is far from being equally present in all writers
