[An Introduction to the Study of Language](#) Leonard Bloomfield, 1914. This is a facsimile edition of Bloomfield's *An Introduction to the Study of Language* (New York, 1914) with an introductory article by Joseph S. Kess. Leonard Bloomfield (1887-1949) was responsible for two classic textbooks in the field of linguistics. The earlier, reproduced here, shows some striking differences to his later views, reflecting much of the then-current thinking on language matters. As such, it represents not only an interesting commentary on the theoretical development of an extremely influential linguist but more importantly, it is a telling document in the evolving history of the discipline and a rich source for the psycholinguist interested in how and why we got from where we were to where we are.
