Study of the Earth John Francis White,1965      *Study of the Earth* John Francis White,1960      *Study of the Earth* John Francis White,2017-10-25 Excerpt from Study of the Earth Readings in Geological Science We have reason to believe that the earth has been undergoing a long and complex development proceeding from a comparatively homogeneous and simple structure to one much more complex Some five billion years ago there was only a cloud of matter in the form of dust and gas Later an earth gradually evolved and still later oceans continents and a primitive atmosphere formed The first lifelike structure gradually developed eons ago from comparatively complex minerals And a human animal appeared only an instant ago in geologic time the improbable product of an incredibly long sequence of ancestral events which began with the appropriate sized cloud at a certain distance from a star such are the broad but imperfectly understood outlines of the modern evolutionary View of the world much of whose development has come through study of the earth About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Levin,David T. King, Jr.,2016-06-21 The Earth Through Time 11th

Edition by Harold L Levin and David T King chronicles the Earth's story from the time the Sun began to radiate its light to the beginning of civilization. The goal of *The Earth Through Time* is to present the history of the Earth and the science behind that history as simply and clearly as possible. The authors strived to make the narrative more engaging to convey the unique perspective and value of historical geology and to improve the presentation so as to stimulate interest and enhance the reader's ability to retain essential concepts long after the final exam.

Key Discoveries in Earth and Space Science Christine Zuchora-Walske, 2015-01-01 How did our knowledge of Earth's systems, cycles, and resources develop? Who first proposed theories about the solar system, lunar phases, and gravity? And who used those early findings to expand and even change our understanding? Readers will trace the history of key discoveries in earth and space science as they investigate timelines and gather key details from the text. In doing so, students will make connections between the work of various scientists and analyze the long-term effects of their discoveries.
