

DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility design standards are limited to only the oldest people being and exclude many who might otherwise use them.

IN AN AGE OF GROWING POPULATION that has grown significantly and quickly, it is essential that we design transportation systems that are accessible to all. This includes people of all ages and abilities. The National Association of City Transportation Officials (NACTO) is committed to ensuring that our transportation systems are designed to be accessible to all.

Urban Bikeway Design Guide

National Association of City Transportation Officials

Third Edition

The third edition of the Urban Bikeway Design Guide provides updated guidance on how to design bike facilities that are safe, accessible, and usable for all. It includes a new chapter on how to design bike facilities that are accessible to people with disabilities and a new chapter on how to design bike facilities that are usable for people of all ages and abilities.

OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
