Theorizing the City Setha M. Low, 1999 Anthropological perspective are not often represented in urban studies even though many anthropologist have been contributing actively to theory and research on urban poverty racism globalization and architecture Theorizing the City corrects this omission Following a brief history of urban anthropology emphasizing developments in the field during the 1990s this volume presents twelve ethnographies of major cities in the Americas Africa Asia and Europe Five images of the city the divided city the contested city the global city the modernist city and the postmodern city serve as frameworks for the essays Each section highlights current research trends such as poststructural studies of race class and gender in the urban context political economic studies of transnational culture and studies of the symbolic meanings and social production of urban spaces

A People's History of Detroit Mark Jay, Philip Conklin, 2020-04-17 Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history Meanwhile activists point to the city's cuts to public services water shutoffs mass foreclosures and violent police raids In A People's History of Detroit Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present embedding Motown's history in a global economic context Attending to the struggle between corporate elites and radical working class organizations Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit's past from the rise of Fordism and the formation of labor unions to deindustrialization and the city's recent bankruptcy They demonstrate that Detroit's history is not a tale of two cities one of wealth and development and another racked by poverty and racial violence rather it is the story of a single Detroit that operates according to capitalism's mandates

The Sanitary City Martin V. Melosi, 2008-04-27 Immersed in their on demand highly consumptive and disposable lifestyles most urban Americans take for granted the technologies that provide them with potable water remove their trash and process their wastewater These vital services however are the byproduct of many decades of development by engineers sanitarians and civic planners In The Sanitary City Martin V Melosi assembles a comprehensive thoroughly researched and referenced history of sanitary services in urban America He examines the evolution of water supply sewage systems and solid waste disposal during three distinct eras The Age of Miasmas pre 1880 The Bacteriological Revolution 1880 1945 and The New Ecology 1945 to present day Originally

published in 2000 this abridged edition includes updated text and bibliographic materials The Sanitary City is an essential resource for those interested in environmental history environmental engineering science and technology urban studies and public health
