John Frederic Dobson

The Greek Orators:

The Greek Orators John Frederic Dobson, 1919 **The Greek Orators** John Frederic Dobson, 1908-01-01 Oratory is one of the earliest necessities of society as soon as men were organised on terms of equality for corporate action there must have been occasions when opinions might differ as to the best course to be pursued and if there were no inspired king whose unquestioned authority could impose his will the majority must decide whether to flee or to fight to kill or to keep alive Thus different plans must be discussed and in cases where opinion was evenly balanced that side would prevail which could state its views most convincingly and so the need for deliberative oratory arose With the Greeks oratory was instinctive in the earliest semi historical records that we possess eloquence is found to be a gift prized not less highly than valour in battle the kings and princes are not only renowned for their power but are leaders of the people by their counsels wise and eloquent in their instructions strength and courage are the property of all but the real leaders must be the counsellors Nestor who is almost past the age for fighting is honoured among the first for his eloquence and whereas Achilles shares with many other warriors the glories of the Iliad Odysseus fertile in counsel is the chief subject of an entire poem The speech of Phoenix in the ninth book of the Iliad shows us the ideals which were aimed at in the education of a prince He tells how he trained the young Achilles to be a speaker of words and a doer of deeds and Achilles as we know him well justified this training The leading characters in the Homeric poems are already fluent orators able and ready to debate intelligently on any concrete subject and moreover to seek guidance from general principles Nestor makes frequent appeals to historical precedent Phoenix introduces allegorical illustration many speakers refer to the sanctity of law and custom though the particular case is foremost in the mind generalisations of various kinds are by no means infrequent The Homeric counsellor can urge his own arguments and rebut those of his opponent with a natural facility of speech and readiness of invective which even a polished wielder of personalities like Demosthenes might envy From the spontaneous outpourings of Achilles and his peers to the studied artifice of Lysias and Demosthenes is a long journey through unknown country and it is obvious that no definite course of development can be traced but a reference to Homer is of twofold importance In the first place it may indicate that Greek oratory was obviously of native growth since the germs of it are to be found in the earliest annals secondly Homer was studied with such devout reverence not only by the Athenian orators themselves but by their immediate literary predecessors the cosmopolitan Sophists and the rhetoricians of Sicily that his influence may have been greater than would at first sight seem probable **The Greek orators** J. F. Dobson, 2025-05-04 The Greek orators by J F Dobson Published by Good Press Good Press publishes a wide range of titles that encompasses every genre From well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need to be read Each Good Press edition has been meticulously edited and formatted to boost readability for all e readers and devices Our goal is to produce eBooks that are user friendly and accessible to everyone in a high quality digital format **The Greek orators** John F.

Dobson,1971 **Attic Orators** M. J. Edwards,1994 This concise and informative introduction to the Attic orators a volume in the well established Classical World series is aimed at the late school and undergraduate student It includes valuable comments on the orators styles and a chronologically arranged catalogue of speeches The Greek orators John Frederic Dobson,2024-12-24 Oratory is one of the earliest necessities of society as soon as men were organised on terms of equality for corporate action there must have been occasions when opinions might differ as to the best course to be pursued and if there were no inspired king whose unquestioned authority could impose his will the majority must decide whether to flee or to fight to kill or to keep alive Thus different plans must be discussed and in cases where opinion was evenly balanced that side would prevail which could state its views most convincingly and so the need for deliberative oratory arose The Greek Orators John Frederic Dobson,1919 **The Greek Orators Considered as Historical Authorities. The Arnold Prize Essay for 1866** Francis Allston Channing baron Channing,1866 The Greek Orators John F. Dobson,1974 **Orations: Greek orators** ,1900 **Greek orators** Mayo Williamson Hazeltine,1903 **The Greek Orators** Dobson John Frederic,2019-03-03 Demosthenes, Speeches 50-59 ,2010-01-01 This is the sixth volume in the Oratory of Classical Greece This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline These translations are especially designed for the needs and interests of today s undergraduates Greekless scholars in other disciplines and the general public Classical oratory is an invaluable resource for the study of ancient Greek life and culture The speeches offer evidence on Greek moral views social and economic conditions political and social ideology law and legal procedure and other aspects of Athenian culture that have been largely ignored women and family life slavery and religion to name just a few Demosthenes is regarded as the greatest orator of classical antiquity indeed his very eminence may be responsible for the inclusion under his name of a number of speeches he almost certainly did not write This volume contains four speeches that are most probably the work of Apollodorus who is often known as the Eleventh Attic Orator Regardless of their authorship however this set of ten law court speeches gives a vivid sense of public and private life in fourth century BC Athens They tell of the friendships and quarrels of rural neighbors of young men joined in raucous intentionally shocking behavior of families enduring great poverty and of the intricate involvement of prostitutes in the lives of citizens They also deal with the outfitting of warships the grain trade challenges to citizenship and restrictions on the civic role of men in debt to the state **A Library of Universal Literature: Greek orators.- v. 2.
