### **Three Cornered World:**

**The Three Cornered World** Natsume Soseki, 2022-05-24 The Three Cornered World is the novelistic expression of the contrast between the Western ethical view of reality and the Eastern ethical view by one of Japan's most beloved authors. Natsume Soseki tells of an artist who retreats to a country resort and becomes involved in a series of mysterious encounters with the owner's daughter. Intricately interwoven with the author's reflections on art and nature, conversations with Zen monks and writers of haiku, are a plethora of unique Japanese characters offering the reader an exquisite word painting.

**The Three-cornered World** Sōseki Natsume, 2011 Interspersed with philosophies of both East and West, The Three Cornered World blends two very different cultures in this unique representation of an artist struggling with his craft and his environment.

**Aesthetic Life** Miya Elise Mizuta Lippit, 2020-10-26 This study of modern Japan engages the fields of art history, literature, and cultural studies, seeking to understand how the beautiful woman *bijin* emerged as a symbol of Japanese culture during the Meiji period (1868-1912). With origins in the formative period of modern Japanese art and aesthetics, the figure of the *bijin* appeared across a broad range of visual and textual media: photographs, illustrations, prints, and literary works, as well as fictional, critical, and journalistic writing. It eventually constituted a genre of painting called *bijinga* (paintings of beauties). *Aesthetic Life* examines the contributions of writers, artists, scholars, critics, journalists, and politicians to the discussion of the *bijin* and to the production of a national discourse on standards of Japanese beauty and art. As Japan worked to establish its place in the world, it actively presented itself as an artistic nation based on these ideals of feminine beauty. The book explores this exemplary figure for modern Japanese aesthetics and analyzes how the deceptively ordinary image of the beautiful Japanese woman, an iconic image that persists to this day, was cultivated as a national treasure synonymous with Japanese culture.

**The Awakening of Modern Japanese Fiction** Michihiro Ama, 2021-02-01 The Awakening of Modern Japanese Fiction is the first book to treat the literary practices of certain major modern Japanese writers as Buddhist practices and to read their work as Buddhist literature. Its distinctive contribution is its focus on modern literature and, importantly, modern Buddhism, which Michihiro Ama presents both as existing in continuity with the historical Buddhist tradition and as having unique features of its own. Ama corrects the dominant perception in which the Christian practice of confession has been accepted as the primary informing source of modern Japanese prose literature, arguing instead that the practice has always been a part of Shin Buddhist culture. Focusing on personal fiction, this volume explores the works of literary figures and Buddhist priests who, challenged by the modern development of Japan, turned to Buddhism in a variety of ways and used literature as a vehicle for transforming their sense of selfhood. Writers discussed include Natsume Soseki, Tayama Katai, Shiga Naoya, Kiyozawa Manshi, and Akegarasu Haya. By bringing Buddhism out of the shadows of early twentieth-century Japanese literature and elucidating its presence in both individual authors' lives and the genre of autobiographical fiction, The Awakening of Modern Japanese Fiction demonstrates a more nuanced understanding of the role

of Buddhism in the development of Japanese modernity      **Murakami Haruki** Michael Seats,2009-01-01 This book offers a new approach to dealing with Murakami's radical narrative project by demonstrating how his first and later trilogies utilize the structure of the simulacrum a second order representation to develop a complex critique of contemporary Japanese culture      *A History of Modern Japanese Aesthetics* Michael F.
