

The 'Freedom Programme'

Threshold

A safe place for anyone
affected by domestic abuse.

A ten-week programme that examines the 'roles' played by abusive men (shaped by their attitudes and beliefs) and the responses of victims and survivors.

The aim is to help women make sense of their experience of domestic abuse and explore how children are affected by being exposed - and how their lives are improved when the abuse is removed.

Threshold of Freedom Marjorie Stephenson,2003-03-30 What cost the price of bigotry We are about to find out When Captain Seth Walker returns home after the Civil War he finds that his parents have been killed and his Georgia plantation home burned To escape the heartache he and his bride head west to begin a new life in Arkansas Problems with the Klan develop and years later a local ruffian attacks their mulatto servant girl In a rage Walker kills the attacker but young Rob Stevens takes the blame and the hanging Rob s wife takes their daughter Janell away from Midvale never to return However as a young woman Janell does return to Midvale to clear her father s name His wrongful hanging is brought full circle when she through her own prejudice mistakenly accuses a black juvenile of a sexual assault on the white Kathy Boone With the help of young Dr Dell Lassiter Janell struggles to overcome her guilt from the vigilante justice that follows and the racial prejudice that controls her When a life changing secret in her own past is discovered her world nears collapse but love never fails Dell and others help her learn to accept the beauty of the truth and the freedom it holds for the future

Indirect Freedom Andrew J. Latham, 2025-09-30 This book advances a new kind of compatibilist account of free will indirect compatibilism It is the first sustained philosophical analysis of the idea that the ordinary concept of free will is a conditional one Indirect compatibilism is the combination of two theses The first is that the best understanding of our concept of free will is that it is a conditional concept that indeterminism or libertarian powers are necessary if they are actual but not if they are not The second is indirection that actions are free either when they are caused by standard conscious psychological processes or else by sub personal level processes influenced in various ways by conscious psychological processes The book combines traditional philosophical analysis with empirical work in particular experimental philosophy and cognitive neuroscience to produce a detailed description and defence of indirect compatibilism Indirect compatibilism resolves two important problems in the free will literature that people as a matter of fact do not accept that free actions can exist in a deterministic universe and that some simple actions are under the direct control of conscious psychological processes Indirect Freedom will appeal to researchers and graduate students interested in the metaphysics of free will experimental philosophy philosophy of mind and cognitive neuroscience

Illiberal Constitutionalism in Poland and Hungary Tímea Drinóczi, Agnieszka Bień-Kacała, 2021-09-15 This book theorizes illiberal constitutionalism by interrogation of the Rule of Law democratic deterioration and the misuse of the language and relativization of human rights protection and its widespread emotional and value oriented effect on the population The work consists of seven Parts Part I outlines the volume's ambitions and provides an introduction Part II discusses the theoretical framework and clarifies the terminology adopted in the book Part III provides an in depth insight into the constitutional identity of Poles and Hungarians and argues that an

unbalanced constitutional identity has been moulded throughout Polish and Hungarian history in which emotional traits of collective victimhood and collective narcissism and a longing for a charismatic leader have been evident Part IV focuses on the emergence of illiberal constitutionalism and based on both quantitative and qualitative analyses argues that illiberal constitutionalism is neither modern authoritarianism nor authoritarian constitutionalism This Part contextualizes the issue by putting the deterioration of the Rule of Law into a European perspective Part V explores the legal nature of illiberal legality when it is at odds and in compliance with the European Rule of Law illiberal democracy focusing on electoral democracy and legislative processes and illiberalization of human rights Part VI investigates whether there is a clear pattern in the methods of remodeling or distancing from constitutional democracy how it started consolidated and how its results are maintained The final Part presents the author s conclusions and looks to the future The book will be an invaluable resource for scholars academics and policy makers interested in Constitutional Law and Politics
