interpret it The Action of Thought Understanding and Responding explores how thought shapes our perception builds our reality and drives our responses often without our conscious awareness This book reveals how the mind through knowledge and imagination creates meaning out of what we see and how those meanings become our experience of reality Through clear inquiry and practical examples the book examines How thought understands the world by interpreting what is seen How psychological responses thoughts emotions and imagination arise from knowledge How imagination when misperceived as reality leads to distorted experience and behaviour How cultural identity belief and association polarise perception Why interpretation is often subtle and automatic giving rise to misinterpretation How coherent behaviour depends on accurate perception and flexible knowledge Why transformation begins with seeing how thought colours reality without our awareness This is not a theory about the mind it is a detailed observation of how the mind functions in daily life The book reveals that to respond intelligently we must first see clearly and that seeing clearly requires insight into the subtle unobserved movement of thought The Action of Thought Understanding and Responding is ideal for readers interested in consciousness perception psychological clarity and Krishnamurti inspired self inquiry **Canadian Social Work Review** ,2005 IGARSS ,1996
