

Understanding Inequality

Kathleen Armour

Understanding Inequality:

Understanding Inequality: Social Costs and Benefits Amanda Machin, Nico Stehr, 2016-04-14 The contributions in this book highlight contextualize and analyze different aspects of social inequality What are the various cause and effects of inequality How have these changed over recent decades Which social policies might be best able to intervene Written by authors from a variety of disciplines and geographical regions these contributions provide a rich account of inequality within contemporary society The role of the state the media and the market in exacerbating and alleviating patterns of equality are all accessed alongside analysis of changing patterns of exclusion and hierarchy

Explaining Inequality Maurizio Franzini, Mario Pianta, 2015-12-14 Inequalities in incomes and wealth have increased in advanced countries making our economies less dynamic our societies more unjust and our political processes less democratic As a result reducing inequalities is now a major economic social and political challenge This book provides a concise yet comprehensive overview of the economics of inequality Until recently economic inequality has been the object of limited research efforts attracting only modest attention in the political arena despite important advances in the knowledge of its dimensions a convincing understanding of the mechanisms at its roots is still lacking This book summarizes the topic and provides an interpretation of the mechanisms responsible for increased disparities Building on this analysis the book argues for an integrated set of policies addressing the roots of inequalities in incomes and wealth

Explaining Inequality will be of interest to students researchers and practitioners concerned with inequality economic and public policy and political economy

Understanding Inequality, Poverty and Wealth Ridge, Tess, Wright, Sharon, Sharon Elizabeth Wright, 2008-06-30 This major textbook provides students with a critical understanding of poverty and social exclusion in relation to wealth rather than as separate from it

Understanding Inequality Barbara A. Arrighi, 2001 This book brings together essays by some of the most influential writers of our time including Derrick Bell bell hooks Simone de Beauvoir Judith Butler and Deborah Tannen offering a systematic and integrated portrait of social inequality in America today Unusual in its combination of both statistical analyses and descriptive accounts this up to date book is a cogent introduction to race class gender and other current dimensions of social and economic inequalities It also serves as an invaluable reference source for any university research or large public library

Social Class and Stratification Rhonda Levine, 2006-04-27 The second edition of this strong collection brings together classical statements on social stratification with current and original scholarship providing a foundation for theoretical debate on the nature of race class and gender inequality Designed for students in courses on social stratification inequality and social theory this new edition includes a revised and updated editor's introduction and conclusion along with five new chapters on race and gender from distinguished scholars in the field

The Routledge Companion to Philosophy in Organization Studies Raza Mir, Hugh Willmott, Michelle Greenwood, 2015-11-06 The Routledge Companion to Philosophy in Organization Studies provides a wide ranging overview of the significance of philosophy in organizations The volume brings

together a veritable who's who of scholars that are acclaimed international experts in their specialist subject within organizational studies and philosophy The contributions to this collection are grouped into three distinct sections Foundations exploring philosophical building blocks with which organizational researchers need to become familiar Theories representing some of the dominant traditions in organizational studies and how they are dealt with philosophically Topics examining the issues themes and topics relevant to understanding how philosophy infuses organization studies Primarily aimed at students and academics associated with business schools and organizational research The Routledge Companion to Philosophy in Organization Studies is a valuable reference source for anyone engaged in this field **The Oxford**

Handbook of the South African Economy Arkebe Oqubay, Fiona Tregenna, Imraan Valodia, 2021 This Handbook provides a detailed and wide ranging coverage of the key economic questions in South Africa concentrating on the more recent economic challenges facing the country Understanding Inequality John Stephenson, Shamubeel Eaqub, 2013

Understanding Inequality, Poverty and Wealth : Policies and Prospects Sharon Wright Tess Ridge, The Policy Press, 2010 About This Book At a time when the divide between the wealthy and the disadvantaged is widening this major textbook provides students with a critical understanding of poverty and social exclusion in relation to wealth rather than as separate from it Raising fundamental questions about the organisation of society social structures and relationships and social justice the book is split into four main sections exploring key concepts and issues people and place poverty and wealth across different groups and situations the role of the state and prospects for the future This is the only textbook to focus on the links between wealth and poverty and contains an edited collection of chapters specially written by a distinguished panel of contributors including Pete Alcock Daniel Dorling Mary Shaw Gill Scott and Jay Ginn It is designed with the needs of students in mind and includes useful chapter summaries illustrative boxes and diagrams and pointers to relevant websites and other sources of further information This is an essential textbook for level 1 2 undergraduate students studying social policy either as a main subject or as part of their course It is a core text for level 3 4 specialist modules in this field About the Author Tess Ridge is a Lecturer in Social Policy at the University of Bath She is a trustee of the Child Poverty Action Group and Honorary Secretary of the Social Policy Association Dr Sharon Wright is Lecturer in Social Policy at the University of Stirling Sharon is Managing Co Editor of the journal Social Policy Society and Co convenor of the Scottish Social Policy Network

Understanding Social Inequality Tim Butler, Paul Watt, 2006-12-18 This is a book that should be read by anyone interested in class inequality poverty and politics Actually probably more importantly it should be read by people who think that those things do not matter It provides a wonderful summation of the huge amount of work on these topics that now exists and it also offers its own distinctive perspectives on a set of issues that are despite the claims of some influential commentators still central to the sociological enterprise and indeed to political life Roger Burrows University of York A clear and compelling analysis of the dynamics of social and spatial inequality in an era of globalisation This is an invaluable resource for students

and scholars in sociology human geography and the social sciences more generally Gary Bridge University of Bristol With the declining attention paid to social class in sociology how can we analyze continuing and pervasive socio economic inequality What is the impact of recent developments in sociology on how we should understand disadvantage Moving beyond the traditional dichotomies of social theory this book brings the study of social stratification and inequality into the 21st century Starting with the widely agreed fact that the world is becoming more unequal this book brings together the identity of displacement in sociology and the spaces of flow of geography to show how place has become an increasingly important focus for understanding new trends in social inequality

Sustainability and Sustainable Development Lisa

Benton-Short, 2023-02-23 The challenge in teaching an introductory course on sustainability is there are many ways to teach it and many issues to cover The United Nations Sustainable Development Goals offer a cohesive and interconnected set of topics to help address this problem indeed the SDGs are now the guiding framework for planning and implementing sustainability through 2030 They are the focus of international development efforts and the lingua franca of sustainability as a field of study the international consensus on what is sustainability As such the UN SDGs present an ideal framework for an introductory level textbook because taken together they integrate the Three Es environment economic development and equity that are the core definition of sustainability This book introduces students to sustainability structured around the 17 UN SDGs Through a global perspective with attention given equally to how sustainability challenges the highest income countries of the Global North as well as to the moderate and low income countries of the Global South Benton Short synthesizes basic environmental science policy and interdisciplinary perspectives while investigating key challenges to developing a more sustainable future through the SDG framework Readers will easily tackle this complex set of topics through an accessible writing style comprehensive scholarship and diverse perspectives Guided by a lush art program complete with numerous maps figures and photos to enliven the presentation students will develop a greater understanding of the important trends in sustainability in the twenty first century The broad arguments highlighted through numerous case studies and boxes prepare global citizens to grapple with the environmental social economic and political challenges that face our collective future Features of this exciting brand new text include Chapter opening learning objectives to guide students course goals Helpful study aids such as key terms bolded in the text and compiled both at the end of each chapter and in a comprehensive glossary End of chapter questions for discussion and activities to promote active learning A stunning art program with detailed maps figures tables and photos to engage students as visual learners Critical Perspectives and Expert Voice boxes to present the diverse perspectives in sustainability Interconnections boxes to help students tie together ideas across the issues Key Terms and Concepts and Understanding the Issue boxes to go in depth on important topics Making Progress and Solutions boxes that show students hopeful trends toward seemingly intractable problems SDGs and the Law boxes that provide a legal and governance context

Understanding Poverty, Promoting Wellbeing, and

Sustainable Development J. M. Manjengwa, Sara Feresu, Admos Chimhowu, 2012 China Today, China Tomorrow Joseph Fewsmith, 2010-08-16 In this timely book a group of leading scholars provides a comprehensive assessment of China's polity, economy, and society. Taking the thirtieth anniversary of Beijing's adoption of reform and opening as an occasion to reflect on the course of development over the past three decades, the contributors consider where the country may be going in the future. Just as China has had enormous success in developing its economy, it continues to face equally enormous challenges across a wide variety of issues, including inequality, social protest, energy, the environment, and a resurgence of religion. As a polity, China has tried to build a modern legal system while balancing center-local relations, sustaining a viable ideological framework, and maintaining stable politics at the elite level. At the same time, the current global economic crisis poses a major obstacle to China's model of development. Authoritative, accessible, and current, this book will be an invaluable resource for all readers interested in the fate of a rising global power. Contributions by Edward A. Cunningham, Joseph Fewsmith, Sebastian Heilmann, Jamie Horsley, Joanna Lewis, Yawei Liu, Barry Naughton, Elizabeth J. Perry, Ren Jiantao, Carl Riskin, Sun Yanfei, Robert Weller, Min Ye, and Yongnian Zheng **Place Matters** Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda Reading Between The Lines: Toward an Understanding of Current Social Problems Amanda Konradi, Martha Schmidt, 2003-07-31 Drawing from a wide selection of current research and writings, *Reading Between the Lines* brings together accessible readings that examine a broad range of social problems and reflect different conceptual approaches. The text provides a conceptual framework for understanding social problems and enables an integrated race, class, and gender analysis Understanding the Founding Alan Ray Gibson, 2007 Over the course of the last century, scholars have furiously debated four questions concerning the Founders and their act of creation: Were the Framers motivated by their economic interests? How democratic was the Framers' Constitution? Should we interpret the Founding using philosophical or strictly historical approaches? What traditions of political thought were most important to the Framers? In *Understanding the Founding: The Crucial Questions*, Alan Gibson examines the preconceptions that scholars bring to these questions, explores the deepest sources of scholars' disagreements over them, and suggests new and thoughtful lines of interpretation and inquiry. Building on his previous work, *Interpreting the Founding*, which offers a synoptic overview of the competing perspectives that have informed modern scholarship on the Founders **Understanding Economic Inequality** Todd A. Knoop, 2020-01-31 In *Understanding Economic Inequality*, the author brings an economist's perspective, informed by new groundbreaking research on inequality from philosophy, sociology, psychology, and political science, and presents it in a form that is accessible to those who want to understand our world, our society, our politics, our paychecks, and our neighbors' paychecks better **The Six Facts that Matter** Geoffrey Sanzenbacher, 2022-09-04 Understanding economic inequality in the United States can be complicated. This book tries to make it simple. So each chapter starts with one of six nice simple facts: 1. middle class wages

are going nowhere 2 the gender wage gap is stuck in neutral 3 marriage is now for the rich 4 the racial wage gap hasn't budged since 1975 5 incomes at the top are exploding and 6 children with rich parents do better as adults Then it gets real In this book you'll learn basic economics like how wages are determined and the changing roles of technology education caregiving and discrimination But you'll also go beyond the basics into topics like the economics of marriage and crime And like a good class the material snowballs By the time you get to the chapter on racial inequality you will be able to connect the dots from discrimination in labor markets to racial inequality in marriage You will be thinking like an economist This author will donate 25 percent of his proceeds to Big Brothers Big Sisters of Eastern Massachusetts

Deep Inequality Earl Wysong, Robert Perrucci, 2017-11-17 Forbes reports that the richest 1 percent of the world's population owns nearly half the world's wealth and the gap between the richest and poorest of the world only continues to increase Deep Inequality looks behind these stark statistics to understand not only wealth inequality but also rising disparities in other elements of life from education to the media The authors argue that inequality has become so pervasive that it is the new normal When we do recognize troubling inequality we look at individual or small scale problems without understanding the broader structural issues that shape the economy the global political system and more Only by understanding the structural forces at play can we recognize the deep divisions in our society and work for meaningful change Deep Inequality explains the changing landscape of inequality to help readers see society in a new way

Understanding and Charting Our Progress Toward the Prevention of Woman Abuse Linda MacLeod, Canada. Family Violence Prevention Division, 1994 This document analyzes a broad sample of the projects funded by the Family Violence Prevention Division exploring how these projects have contributed to knowledge about and progress toward prevention The three main goals of the report are to elaborate on what the projects analyzed teach us about prevention to describe in a qualitative way how projects funded by the Family Violence Prevention Division have added to preventive efforts around woman abuse in terms of their contribution to what works and their contribution to reducing barriers to prevention and to elaborate on the findings from these projects in order to suggest directions for future activities by the Family Violence Prevention Division related to the prevention of woman abuse as well as needed directions that fall outside the responsibilities of the division In addition the report examines the projects analyzed in the context of the broader Health Canada mandate related to family violence and the Federal Family Violence Initiative
