cognitive enhancement plan providing readers with actionable steps to unlock their brain's full potential Biohacking & Nanohacking Edilson Gomes De Lima, 2017-02-18 Um trabalho minucioso que traz a luz o submundo do novo movimento hacker por mostrar os hackers digitais mas um movimento de expansão desse movimento O trabalho demonstra como sorrateiramente muitos hackers estão anexando as ciências conceituais ao movimento por meios alternativos Em especial a biologia física química e até a nanotecnologia bem longe das garras regulatórias de grilhões dos meios acadêmicos Tudo para desenvolver uma revolução no mundo Os hackers estão aos poucos anexando as ciências e tecnologias físicas junto aos conceitos lógicos mais sofisticados hacker já feitos inacreditáveis em curso Não há limites as ações em uma dinâmica rápida e eficiente Do hackeamento do DNA feito com instrumentos alternativos e de baixo custo até mesmo como estudos de armamentos biológicos para uso comercial O autor deste livro lançou mundialmente uma questão no meio Biohacking por meio de um artigo como um chamado What Would Be the Best Hello World for Biosciences Generating a Method for Biohacking Com o intuito de chamar a comunidade para definir padrões ao meio Apostando na máxima de que só com perguntas se chega a solução de problemas Neste livro também será abordado temas referentes às biociências em geral e técnicas estratégicas de realizar experimentos com materiais de baixo custo Para o hacker de biociências não há desculpas de não ter equipamentos como ocorre nas academias O verdadeiro hacker cria seus próprios equipamentos com materiais alternativos Desta forma termos técnicos da engenharia genética engenharia de tecidos e outros passam a ser apenas parte de um trabalho que tende ao complexo Além de uma descrição detalhada sobre o assunto como trabalhar com iPSC e seus ativadores e estudo de casos CRISPR e termos técnicos Da engenharia genética e engenharia de tecidos são bem exemplificados Uma obra para qualquer iniciante se sentir familiarizado com o mundo das biociências e ir muito além **Biohackers Magazine Issue 9** Biohackers Magazine , The importance of continual self improvement and development cannot be understated especially in the world of biohacking But there is also something that cannot be overstated in this same realm of personal health and growth and that is the vital role that women play Often argued and affirmed as the more intuitive of the 2 sexes women have and continue to push themselves and their community towards their health wellness and wisdom goals In a lot of ways men have it easy Our bodies instruction manual is comparable to a generic IKEA coffee table's guided instructions not a lot to decipher But some could compare women's bodies manuals to NASA's rocket construction directions a lot of steps and A LOT to understand Granted the woman's body is easily the more attractive of the two in my opinion and I want it to be clear that although this statement is biased I mean this as a more aesthetic art like manner The symmetry the intricacy the mysteriousness the gracefulness just the way everything connects Perhaps it's because of this clear advantage in the beauty category that it takes a lot to master all the processes within it It once was said that in the beginning God first made man but then afterwards he took a long look at him and then told himself I can do better than that and then made woman Women are at the forefront of biohacking and it's clear that the industry would not be where it is today without them Due to women having to figure out all

of their complexities but also having the tenacity and courage to do so they have stood side by side with men and helped to share the helpful and needed knowledge of health optimization with the world It is with great pleasure and respect that we dedicate this issue to all of the women in the world striving to promote good health strong lives and clearer minds Although we have had and will continue to have female authors and subject matter in past and future issues every article contained inside this particular issue is either written by a female author or purely feminine in subject matter This is our way to take a moment to highlight and thank all those women out there doing their thing At Biohackers Magazine we believe no we know that every woman s thought and word is just as important as every man s And we are here to provide this magazine as the ontic evidence to that Without further ado enjoy your new woman ful issue
