'In tragic texts although the villains are far from good, they are not evil.'

To what extent do you agree with this view in relation to two texts you have studied?

Remember to include in your answer relevant comment on the ways the writers have shaped meanings.

Miller presents Ben as an evil figure, embodying the corrupting and nefarious ideology of the American Dream. Not merely an unlikable figure, Ben embodies the real evils of American neo-imperialism in his dealings in diamond mines in the Gold Coast; an exploitative and bloody industry about which he brags of having 'never kept books', suggesting the illegality of his exploits. Equally, Ben treats his family with utter neglect and disdain. When he appears on stage, Miller presents him as constantly on the verge of departure, warning his brother of 'time, William, time' and contributing to Willy's sense of abandonment and insecurity. Furthermore, in Act 1, Ben is presented as tripping up Biff and, with unaccountable aggression, placing the end of an umbrella close to his eye, declaring 'never fight fair with a stranger, boy'. This small vignette is suggestive of his capacity for violence and deception. In referring to his own nephew as a 'stranger,' moreover, he denies any family allegiance to the Lomans. Miller enhances the audience's sense of Ben's evil in the final moments of Act 2, where he appears in Willy's deluded and suicidal thoughts, luring him towards the 'diamonds' in the 'jungle'. Herein, we find Ben embodying the evil of an ideology which champions the pursuit of generational wealth at any price. Miller uses Ben as a microcosm for the destructiveness of the American Dream, according to which self-enrichment becomes the principle social good, and the value of life becomes corrupted and commodified by a materialistic and capitalistic value system.

Contrastingly, I'd argue that Willy's boss Howard, though far from good, is not presented as an evil character. Miller represents Howard as a callous, thoughtless and exploitative employer, however, he is also presented as being highly typical of the post-war American workplace, rather than an abnormal or evil aggressor. His concern for profit over people and complacent tautology 'business is business' reflects a broader social pathology that Miller is attempting to critique. In the beginning of Act 2, Willy rages at Howard, declaring 'I put thirty-four years into this firm, Howard, and now I can't pay my insurance! You can't eat the orange and throw the peel away — a man is not a piece of fruit!' Willy here acts as a mouthpiece for the exploited, downtrodden and discarded

Environmental Health Perspectives ,1979 **Eli Ginzberg** Irving Horowitz,2017-12-04 The world of Eli Ginzberg can readily be thought of as a triptych a career in three parts In his early years Ginzberg s work was dedicated to understanding the history of economics from Adam Smith to C Wesley Mitchell and placing that understanding in what might well be considered economic ethnography His studies took him on travels from Wales in the United Kingdom to California in the United States For example the poignant account of Welsh miners in an era of economic depression and technological change remains a landmark work His report of a cross country trip taken in the first year of the New Deal provides insight and evaluation that can scarcely be captured in present day writings The second period of his career corresponds to Ginzberg s increasing involvement in the practice of economics He deals with issues related to manpower allocation employment shifts and gender and racial changes in the workforce His writing reflects a growing concern for child welfare and education In this period his work increasingly focuses on federal state and city governments and how the public sector impacts all basic social issues His work was sufficiently transcendent of political ideology that seven presidents sought and received his advice and participation After receiving all due encomiums and congratulations for intellectual work and policy research well done Ginzberg then went on to spend the next thirty years of his life carving out a place as a preeminent economist of health welfare services and hospital administration It is this portion of his life that is the subject of Eli Ginzberg The Economist as a Public Intellectual What is apparent in Ginzberg s work of this period is his sense of the growing interaction of all the social sciences pure and applied to develop a sense of the whole The contributors to this festschrift join together to provide a portrait of a figure whose life and work have spanned the twentieth century and yet pointed the way to changes in the twenty first century Eli Ginzberg from the start possessed a strong sense of social justice and economic equality grounded in a Judaic Christian tradition All of these aspects come together in the writings of a person who transcends all parochialism and gives substantive content to the often cloudy phrase public intellectual Irving Louis Horowitz is Hanna Arendt Distinguished Professor Emeritus at Rutgers the State University of New Jersey where he has taught for over thirty years He also serves as Chairman of the Board at Transaction Publishers His writings include *Radicalism and the Revolt Against Reason* *Behemoth* *Main Currents in the History and Theory of Political Sociology* and *Taking Lives* *Genocide and State Power*
